RE: The Registration Process for Spring 2005 will Bypass the mylasalle Portal

We would like to take this opportunity to inform you that due to an impending upgrade which will be implemented at approximately the same time as when Spring 2005 Registration begins, the registration process will purposely bypass the mylasalle portal.

There will be a "**Register Now!**" link placed on the La Salle homepage (<http://www.lasalle.edu>) that students will use to access the online registration process through Brother LUWIS. This information will be included in the correspondence students receive from the Office of the Registrar.

Please note that it is our full intention to return the registration process to the portal for the Fall 2005 registration. Once implemented, we believe that the new version of the portal will be able to better serve the registration process, as the "new mylasalle" will reside on a larger, more robust server. At this time, however, due to the timing of the upgrade, we do not want to chance jeopardizing the ability to provide premium service to our students as they prepare to register for their spring classes.

Also, please be advised that one of the reasons for this upgrade is that we realize that there have been load issues in the past that have slowed the registration process through mylasalle. It should be noted that in addition to obtaining a larger server and upgrading the version of the portal, our IT staff has been working diligently with SungardSCT (the company that produces the software for mylasalle), to hopefully prevent load issues from occurring in the future.

We appreciate your patience and cooperation as we collectively attempt to make every effort to provide optimal online service to the La Salle Community.
