Interview Guide: Dr. Zane Wolf

Can you tell me a little about yourself (when/where you were born, education, etc.)?  
How did you decide to pursue nursing?  
Where did you receive your nursing education?  
What other positions have you held, either as a practicing nurse or as an administrator?  
What people have inspired you during your career?  
What is the most difficult aspect of your job? The most rewarding aspect?

In what capacity were you involved with the nursing program at its beginning?  
Were there any faculty or administrators on campus that especially supported the new School?  
What was it about the program that made you want to be a part of it?  
Were there any unique facets of La Salle Nursing that were particularly exciting to you?  
How did you feel when you were asked to participate?  
How did you come to be the dean of the school after Dr. Cynthia Capers?  
What were some of the challenges the program encountered in its early years?  
How have facilities improved?  
How did the staff feel about the move to Wister Hall?  
In what ways has the program changed since it was first established? In what ways has it remained the same? What changes did you make when you became the dean of the nursing school?

What core values form the philosophy of the nursing program today?  
How is the program “Lasallian” in nature?  
What factors do you believe have contributed to the exponential growth of the La Salle nursing program?  
What social and technological factors have changed the School of Nursing and Health Sciences (and the whole field of nursing) over time?  
What are the main values and skills that you believe all nurses should possess? How does the La Salle program reflect them?  
What was the original mission of the Neighborhood Nursing Center?  
When and how was the Neighborhood Nursing Center established?  
What are the current services provided by the Nursing Center, and how has it been received by the public?  
What is your vision for the School of Nursing and Health Professions in the future?
