Important Information from the Security and Safety Department

In recent months, there has been an increase in thefts of Audio/Visual Equipment and other types of electronic devices found on college campuses in the Philadelphia area. Unfortunately, La Salle University has not escaped being victimized by this rash of thefts.

Security and Safety, Physical Facilities, and MultiMedia Services are working together in an effort to combat and reduce the occurrences of these types of thefts on our campuses. However, in addition to employing additional measures to secure equipment, assistance from the entire campus community is essential.

Please keep the following tips in mind in regard to keeping University equipment safe from theft:

- 1) Do not leave University's equipment, that has been loaned to you (signed out), unattended. This is most important as it concerns *portable* equipment. For example, projectors and lap top computers. Return equipment promptly after use.
- 2) Do not prop open doors. Security systems employed to restrict access to certain rooms and areas are defeated when personnel prop open doors.
- 3) Administrators and supervisors are encouraged to request that access be granted to specialized rooms and areas for those on their staff that require it.
- 4) Report any unauthorized individuals that are observed within buildings or restricted access rooms to Security immediately (x1300) .
- 5) Ensure that private offices and conference rooms are locked and secured when not in use.
- 6) REMIND OTHERS about these tips!

Please be mindful that the responsibility for safeguarding University property is a shared responsibility among all the members of the La Salle Community.
