Division of Student Affairs

To: The University Community
From: The Division of Student Affairs
Subject: Residence Halls Construction and Move-In Issues, 1999
Date: August 20, 1999

Major construction activity in ten of the fourteen traditional residence halls (A,B,C,D,E,F,G,H,J,K) began two days after final exams last spring. When the project is completed, all of the halls will have had complete electrical system upgrades, new state-of-the-art fire safety systems, and computer local area network wiring in all rooms, offering a computer "port for every pillow" access for students.

The construction schedule was an ambitious one and work – including the necessary clean-up – continues right down to the opening weekend "wire." In addition, the nature and scope of this contract work has made it very difficult and, in some cases, virtually impossible to complete other kinds of maintenance and room preparation activities normally scheduled for this time of year.

While we are, of course, excited about improved safety systems and network access, we also are prepared for questions and/or complaints about other kinds of maintenance that still needs to be done.

We and the Physical Facilities staff will use the room condition inventories that will be prepared by the Resident Life staff prior to Opening Weekend as our primary guide to planning for the work that remains to be done during the course of the fall semester. In addition, Resident Life staff will review with students during Opening Weekend floor meetings the steps that can be taken to address particular concerns.

Should other members of the university community be presented with questions or concerns from students, parents, or others about maintenance needs in our student residences, it will be most helpful if those questions or concerns are directed to the Resident Life Office (at the North Halls; extension 1550). If you are faced with a question or concern about which you wish to consult, rather than refer, please contact Housing Services Coordinator Maanami Belton (extension 1550) or Dean of Students Joseph Cicala (extension 1017).

Your assistance and support will be greatly appreciated. Thank you.
