AN EQUAL OPPORTUNITY COLLEGE

La Salle College does not discriminate against any applicant because of race, color, creed, sex, age, physical handicap, or national origin. Admission is based upon an applicant’s qualifications and ability to meet the established requirements for admission and for specific programs.

ACCREDITATION AND MEMBERSHIPS

La Salle College was chartered in 1863 by the Legislature of the Commonwealth of Pennsylvania and is empowered by that authority to grant academic degrees. It is accredited with the Middle States Association of Colleges and Secondary Schools, the Pennsylvania Department of Education, the Regents of the University of the State of New York, the American Chemical Society, the Pennsylvania State Board of Law Examiners and the Council of Social Work Education.

The College is a member of the American Council on Education, the Association of American Colleges, the College Entrance Examination Board, the American Association of Collegiate Registrars and Admissions Officers, the Association of College Admissions Counselors, the National Catholic Educational Association, the College and University Council of Pennsylvania, the Association of Liberal Arts Colleges of Pennsylvania for the Advancement of Teaching, the Pennsylvania Catholic Education Association, the American Library Association, the National Commission on Accrediting, the American Catholic Historical Society, the Educational Conference of the Brothers of the Christian Schools, and the National Association for Foreign Student Affairs.

RIGHTS AND PRIVACY ACT PROVISIONS

Each year, La Salle College informs students of the Family Educational Rights and Privacy Act of 1974. This Act was intended to protect the privacy of educational records, to establish the right of students to inspect and review their educational records, and to provide guidelines for the correction of inaccurate or misleading data through informal or formal hearings.

To fulfill basic requirements for compliance with the Act, each institution must inform each student of his/her right to prevent disclosure of personally identifiable information. Although La Salle does not publish a public directory, the Office of the Registrar, at its discretion, does disclose the following information: Name, address, dates of attendance, class, major field of study, and degree(s) conferred (including dates).

Under the provisions of the Rights and Privacy Act, currently enrolled students may withhold disclosure of such information. To prevent disclosure, written notification must be received by the Office of the Registrar by October 1st in the Fall Semester and February 15th in the Spring Semester.

The College will honor each request to withhold any of the categories of information listed above but cannot assume responsibility to contact a student for subsequent permission to release them. Decisions about withholding any information should be made very carefully. Should a student decide to inform the institution not to release any information, any future requests for such information from non-institutional persons or organizations will be refused.

La Salle College assumes that failure to request the withholding of “directory information” indicates approval for disclosure.
A Profile
The History and Traditions

La Salle College was chartered by the Commonwealth of Pennsylvania in 1863. Its founders were a group of Christian Brothers, some diocesan priests, and several Catholic laymen. It was located at St. Michael’s, one of the oldest parishes in Philadelphia. As the new college grew, it moved first to a center city site at Juniper and Filbert Streets and then to the old Bouvier mansion at 1240 North Broad Street.

La Salle moved to its present location at 20th Street and Olney Avenue in 1929, purchasing part of historic Belfield Farm, once the home of American painter Charles Willson Peale. No sooner had work begun on the collegiate Gothic towers of College Hall than the country plunged into the greatest depression it has ever known. Somehow La Salle College survived the financial doldrums of the 1930’s only to be faced by the greater threat posed by the depletion of the all-male student body during World War II. At its lowest enrollment the College had only 90 students.

After the war’s end, a tremendous influx of veterans created an entirely new challenge of overcrowding. La Salle began an era of expansion that has continued to the present day. In 1970 La Salle ended its century-old tradition as an all-male institution and accepted its first women students. Today women make up 45% of the day school enrollment of 4000 students.

The building and expansion of La Salle College has continued at a rapid pace ever since 1946. A significant resident population of a thousand students is housed on campus. The most recent addition to the buildings on campus is a new wing of the College Union to provide new dining and meeting facilities for the increased resident population.

The physical growth on campus has been matched by the vitality and innovation of academic and student affairs programs. The curriculum was revised after a careful faculty study. New majors have been added in Computer Science, Communication Arts, and Public Administration, and new concentrations within departments enable students to follow programs in international studies, work psychology, urban studies and women’s studies. A special honors concentration in business was introduced. Financial aid to students has increased dramatically, as have the activities and services of the Student Affairs area.
The College is committed to a continuing, rigorous self-study, seeking to find new ways to meet the needs of its students in keeping with its objectives as an urban, liberal arts, multi-purpose institution within a Catholic tradition.

TRADITIONS AND OBJECTIVES

Though often mistakenly connected with the French explorer, the name of the College commemorates the 17th-century French educator and founder of the Christian Brothers, John Baptist de La Salle. The traditions of this saintly, innovative educator have been continued by the Brothers, a non-clerical order of religious who have been teaching in the United States since 1845. Under the auspices of the Brothers, La Salle College strives to continue such La Sallian traditions as devotion to excellence in teaching, concern for ultimate values and for the individual values of its students.

In the light of these traditions, La Salle offers students an education founded on the idea that man's intellectual and spiritual development go hand in hand, complementing and fulfilling one another. The basic purpose of the College is a free search for truth and the development of materials and skills necessary for the search; its religious concern is an extension of that purpose. In a company of mature teachers and scholars, the College urges the student to confront the ultimate questions of human experience: who he is; where his destiny lies; how he is to reach it.

La Salle is committed to a liberal education of both general and specialized studies. It wants its students to liberate themselves from narrow interests and prejudices and to learn to observe reality with precision, judge events and opinions critically, think logically, communicate effectively, and sharpen esthetic perception. The curriculum involves a body of knowledge about the universe; about man—his nature, behavior, and values; about God. It also provides an opportunity to gain specialized knowledge in one field of learning as a preparation for graduate study or entry into professional life. Beyond this breadth and depth of knowledge, the College encourages its students to seek wisdom, that is, to grasp those basic principles which can give order to particular facts.

As a private Catholic college, La Salle pursues these aims in a religiously diverse community of teachers and students interested in studying secular subjects in their autonomy, undertaking religious studies in a systematic way, and investigating what interrelations these subjects may have. The community also engages in programs in which the students' personal, social, and religious values may take root and in which the students may grow in mature attitudes and behavior in all human relationships. The ultimate hope of the College is that its graduates will be ready for informed service and progressive leadership in their communities and will be able to fulfill the immediate and final goals of their lives.
The Campus

For a city college, La Salle’s campus is surprising. Tucked behind the brick facades on Olney Avenue is a pleasantly green and peaceful tract of about fifty acres. Though buses stop at the door and the subway is only a few blocks away, the campus benefits from some of the country-like aspects of its site. Across 20th Street is historic Belfield, one of the few farms within the city limits. South of the campus lies Wister Woods, now a part of Fairmount Park. The result of these happy accidents of locale is that the campus retains a somewhat suburban atmosphere while losing none of the advantages of being an urban college.

In Philadelphia, these advantages are both educational and cultural. The city has a noteworthy group of educational institutions, with a variety of specialized libraries. Its orchestra and museums are internationally famous. Most of the city’s cultural and historical resources are within convenient commuting distance from the campus.

Architecturally, the buildings on campus reflect the history of the College’s growth, ranging from the traditional collegiate Gothic to the modern.

In addition to the classroom buildings (College, Wister, Holroyd, and Olney Halls), the residence halls, houses, and apartments, the campus has the David L. Lawrence Memorial Library, the College Union, and the Hayman Hall athletic facilities.

Over 285,000 volumes are housed in the air-conditioned Lawrence Library and its Wister Hall Annex, along with reading rooms and files of a thousand periodicals. The College Union is a center of student activities, containing dining rooms, lounges, a theatre, and activities offices. Hayman Hall features a swimming pool and diving well, basketball and squash courts, an indoor track, a sauna bath, and other athletic facilities.

A special feature of the campus is the Art Gallery in Olney Hall, which one critic describes as “the finest college art gallery in the Philadelphia area.”
The People

More than buildings, more than books, more than lectures and examinations, education is a matter of people. It is the people who make up La Salle—the students and the teachers—who give the College its character. You may well ask, "What are they like, these people with whom I may spend my next four years?"

As you might expect, your fellow students are a diverse group of men and women, not easy to categorize. Statistics permit a few generalizations, however: geographically, a majority are from the northeastern states; academically, three-fourths of them were graduated in the first or second quintile of their high school class. More than half of them hold part-time jobs, and 67% say they plan graduate or professional studies after college.

Your teachers at La Salle are Christian Brothers, priests, and lay professors. All of them share the same goal: to be of as much help to you, the student, as they can be. St. La Salle's dedication to teaching is the informing spirit of the College, and you will be conscious of this spirit in the willingness of your professors to give that extra moment of explanation or advice which can mean so much. While many of these men and women are engaged in their own scholarship or research, their primary focus is always the classroom and their basic obligation is to you, the student.

Making the transition between high school and college is never easy, but at La Salle you will find many people who want to help and who understand some of the problems you face perhaps better than you do yourself.
During the summer months preceding the start of classes you and your parents will be invited to participate in the Pre-College Counseling Program. At this time you will come to the campus for a full day of conferences with the Counseling Center staff, as well as representatives from Financial Aid, Housing, Placement and other areas of the College. During the program you will have a personal interview with a counselor to discuss your educational and career plans and will meet with an academic adviser who will assist you with your fall roster. In an informal atmosphere of small group discussions, you will also have the opportunity of sharing your ideas with other freshmen, with upperclassmen who have experienced the same transition, and with faculty members and administrators anxious to be of help. The overall aim of the summer program is to make your adjustment to college life as pleasant as possible.

In addition to this initial counseling program, the Counseling Center offers continued diagnostic and counseling services throughout your college years. If you are uncertain of your major or of your career plans, the staff is happy to assist you in making a sound choice based on your interests and capabilities. The Center also offers personal counseling and psychiatric consultation, as well as informational services about graduate and professional schools, drugs and alcohol, selective service and a variety of occupations. Besides offering individual counseling, the Center also conducts group sessions on a variety of topics of concern to students. Management of anxiety—particularly test anxiety—assertiveness training, overcoming shyness, improvement of study skills, and group decision making are but a few of the topics that have been the focus of recent group programs. The sessions have proven popular and effective ways of aiding personal growth.

Being part of a church-related college means you are also part of a community in which people care about one another. The Campus Ministry plays an important role in maintaining that sense of community by stimulating student participation in planning and celebrating the liturgy, by encouraging Christian commitment to social action, and by generally making you more aware of what it means to care for God, yourself, and others.

Nor is your physical well-being neglected while you are on campus. A College physician is always on call, and a registered nurse is in daily attendance in the dispensary. Medical insurance is available and recommended to all students.

Throughout your college days, the Director of the Career Planning and Placement Bureau will be at your service to help you select a career and assist you in planning job campaigns. This office is sometimes able to assist students in finding part-time or summer jobs related to their career goals.

All in all, you will find the human side at La Salle an important part of your education. Long after you have forgotten painfully memorized facts from a textbook or lecture, you will remember the teachers and students with whom you associated in your college years.
The Academic Life

"The only privilege a student had that was worth his claiming," wrote Henry Adams. "was that of talking to the professor, and the professor was bound to encourage it." La Salle professors do encourage it, and classes are small enough to permit discussion and personal relationships with your teachers.

The result is an academic environment where learning and intellectual development are nourished. In more concrete terms, the result is the gratifyingly high number of prestige awards won by La Salle graduates. Over the past decade, for example, La Salle has had 21 Fulbright Scholars, four Danforth Fellows, and one Marshall Fellow.

The presence at La Salle of good teachers, a fine library, and uncrowded classes are all helpful to your academic success, but the actual achievement of your academic goals is ultimately up to you.

The most important adjustment to collegiate life you will have to make is in learning to budget your time wisely. No one will force you to learn; no one can. Instead, you will be treated as a mature, intelligent person. You will be given assigned readings, papers, and projects in research to be turned in by a certain date. You yourself must plan when these assignments will be done; you yourself must bear the responsibility for meeting standards set by your instructors.

The standards for academic achievement are treated in some detail in the reference section of this catalog and need not be discussed here. The important thing for you to realize about the academic side of your college life is that it is the central test of your maturity and sense of responsibility. Learning is sometimes hard work, but it is the most rewarding kind of effort, not only in grades but in the self-satisfaction of having met a difficult challenge successfully.

But the academic side of college is not just a bleak picture of challenges, responsibilities, and standards. The academic side really offers one of the deepest, most lasting joys a person can experience—the joy of understanding.

Suddenly some part of human experience fits into a pattern for you; suddenly you understand why. The best part of the joy of understanding is that it is endless. The deeper your understanding goes, the deeper the satisfaction you experience.

Perhaps you haven't yet discovered this kind of joy; you may even doubt that it exists. Yet when you first experience it, you will begin to understand what education is all about and why many people willingly devote their lives to study and research.
The Residential Community

Living in the La Salle residence halls should be an enhancing educational experience. As a member of the residence community, you have opportunities for greater participation in educational and social programs, community governance, and campus activities. Practically speaking, it is convenient to live in the residence halls. You are within short walking distance from all classes, the Library, the College Union, the gymnasium, and all faculty offices.

Each floor of the residence halls contains a mixed group of students ranging from freshmen to seniors. The groups are small enough to encourage a spirit of friendship, yet large enough to provide for diversity of personalities and interests. As a resident you are exposed to a wide range of academic, cultural, and social opportunities.

The Resident Life Office and the Student Residence Council sponsor social functions, movies, coffee houses, lecture series, trips, and an extensive intramural athletic program. These activities, combined with the varied athletic and recreational facilities, furnish a complete residential experience.

Life in a college residence hall is a unique experience not easily duplicated elsewhere. Living with friends—studying, dining, and socializing together—provides you with chances to learn about yourself, to explore and formulate attitudes and values, and to refine your ability to get along with people. At La Salle, many things—staff, students, facilities, organizations, location, and costs—are blended to offer residents opportunities to experience the benefits of living away from home in a college community.
The Social Life

The social side of college life is a vital part of your education. In living with others, planning activities together, and sharing your ideas in hours of informal discussion you are learning much that is a desirable part of liberal education. You are learning to understand and respect differing points of view; you are learning to discover new relationships and to develop your own convictions.

La Salle, like most colleges and universities, has recognized that student activities play a distinctive role in the total educational program. Participation develops social and leadership skills and provides an opportunity for students from diverse backgrounds to learn from one another. All students are encouraged to become involved in one or more of the social, cultural, educational, and recreational programs available.

Student participants on college committees share with the faculty and administration in identifying institutional objectives and developing policies and programs to maintain and improve the La Salle experience.

An important part of college, therefore, is the opportunity to voice your concerns and to test your thinking in conversations and meetings with others.

Athletics too may develop common interests among students, whether they are participants or spectators. Organized intercollegiate and intramural sports and recreation programs give each student an opportunity to participate according to interests. Male varsity teams include basketball, baseball, swimming, track, cross country, crew, soccer, golf, rifle, tennis, and wrestling. Female teams include basketball, crew, cross country, field hockey, volleyball, tennis, swimming, softball, and track. Intramural sports such as touch football, volleyball, basketball, softball, track, swimming, and water polo have male, female, and co-ed teams. The department also provides recreation opportunities in the gym, pool, squash courts, and sauna, seven days a week.

The La Salle College Union Building is the focal point of much out-of-class activity, offering facilities to complement the activities planned by student, faculty, and administrative groups. In addition to faculty members and administrators who work regularly with organized groups of students, the staff of the Student Life Office works to insure available Union building facilities and advice to extracurricular groups. The combination of students, faculty, and administration working together, sharing ideas and learning from one another, makes the social life a part of the growth and development opportunity at La Salle.
Admissions

If a student is well-motivated toward a college career and can show evidence of academic achievement and ability, the Admissions Committee will welcome an application. In arriving at its decision, the Committee studies the high school record, test scores, and the recommendations from high school faculty, guidance counselor, and principal. Each applicant is given personal consideration. La Salle does not discriminate against any applicant for admission because of race, color, creed, sex, national origin or physical handicap. Admission is based solely upon an applicant’s qualification and ability to meet the established admission requirements. The following are the specific requirements for admission:

HIGH SCHOOL UNITS

Your record should show successful completion of at least 16 units of high school work including the following:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>

The remaining six units may be distributed as follows:

1. Applicants for the Liberal Arts program may present six other units in academic subjects.
2. Applicants for the Science and Mathematics program may present six other units in academic subjects but including an additional one and one-half units in mathematics.
3. Applicants for the School of Business Administration may present six academic or commercial units, excluding typing.

LANGUAGE REQUIREMENTS

All applicants should present two units in the same foreign language.

ENTRANCE EXAMINATIONS

Applicants to the freshman class are required to take either the American College Testing Program or the Scholastic Aptitude Tests given by the College Entrance Examination Board. These tests should be taken no later than January (SAT) or February (ACT) of the senior year. Arrangements may be made through your high school counselor or by writing, six weeks before the test date, to either:

La Salle College’s identification number: CEEB-2363; ACT-3608
ACHIEVEMENT TESTS
The CEEB Achievement Tests are not required. These tests are helpful to departmental
advisers, however, in determining placement in certain English, mathematics, and
foreign language courses. They are recommended, therefore, to students who:

1. wish to apply for a waiver of the freshman composition requirement;
2. desire immediate placement in a calculus course;
3. plan to continue study of a language in college after having completed at least two
   years of that language in high school.

MEDICAL RECORDS
All accepted students are required to have a report of medical history on file in the
Dispensary prior to their attendance at the College.

FOREIGN STUDENT ADMISSIONS
La Salle College is authorized by the Department of Justice, Immigration and Naturaliza-
tion Service to issue Certificates of Eligibility (Form I-20) for non-immigrant "F-1" 
student status, to foreign students who meet admissions requirements. Preliminary
application materials are available from the Coordinator of Foreign Admissions, La Salle
College, Philadelphia, Pa. 19141.

APPLYING FOR ADMISSION
The Committee on Admissions will consider a qualified applicant for acceptance any
time after completion of the junior year. The following credentials are required for
evaluation:
1. A completed application to La Salle College.
2. A transcript of three-year high school scholastic and personality records.
3. The results of the College Board Scholastic Aptitude Test or of the American
   College Testing Program.
   The successful applicant must graduate from high school with creditable grades.
An interested student is encouraged to arrange for a campus visit, which might include
a personal interview and tour. (Phone 215-951-1500)
In exceptional cases, students may be admitted after completion of the junior year on
the recommendation of their high school counselor and evidence of superior achieve-
ment.

Applicants may secure application materials from the Office of Admissions. These
materials include a form which is to be mailed directly to the College by the high school.
Completed applications and the $15.00 application fee should be sent to the Office of
Admissions. The Director of Admissions will notify applicants as soon as possible after a
decision has been made. If accepted, a student is asked to forward a $100.00 deposit,
usually within three months of acceptance. This deposit will be applied to first semester
expenses; the entire deposit is forfeited if an applicant chooses not to attend La Salle.

ADVANCED PLACEMENT
La Salle College participates in the Advanced Placement Program of the College
Entrance Examination Board. Consequently, the College agrees to give credit and/or
advanced placement to students who perform satisfactorily both in college-level courses
taken in secondary school and in the advanced placement examinations administered
by the Board. The equivalents for the grading scale are:
5 or 4 = Advanced credit and advanced placement
3 = Same, on recommendation of departmental head
2 = Advanced placement only on recommendation
1 = No advanced placement or advanced credit

La Salle College also participates in the College-Level Examination Program of the College Entrance Examination Board. Students who wish to be considered for advanced credit through this program should write for information to the College-Level Examination Program, Educational Testing Service, Box 977, Princeton, N.J. 08540.

TRANSFER STUDENTS

La Salle College welcomes qualified transfer students to the fall and spring terms and to the Summer Sessions. Candidates for admission from colleges which offer courses of study similar to those of La Salle College should submit transcripts of their college records as soon after applying for admission as is possible. All except A.A. and A.S. degree holders are required to submit their high school transcripts also. Transfer students should submit the results of College Entrance Examination Board tests or of the American College Testing Program, if available. A letter of appraisal from the Dean of Students of the college or university attended is requested in most cases.

All of these records should be in the Admissions Office by July 15 for admission to the fall term, and December 15 for admission to the spring term. These deadlines provide ample time to process the application, to evaluate transcripts, and to arrange a pre-registration interview.

The previous college record of the applicant must indicate good academic standing. Students applying for transfer from a fully accredited college or university will be considered for admission if their grade point average is 2.25 (on a 4.00 scale), but a 2.50 or higher is preferred. Transfer applicants from colleges which have applied for regional accreditation will be considered if their grade point average is 2.75 or higher (on a 4.00 scale). The decision on each application is based mainly on the grade point average earned at the college or university the student attended before applying to La Salle.

Credit will be allowed for courses completed with grades above the lowest passing grade given at the institution from which the applicant is transferring. Normally, 70 credits may be accepted for transfer.

Transfer students may be required to make up certain courses which belong to the sequence required in the program of studies for which they are applying.

Interested prospective students should direct their inquiries to the Assistant Director of Admissions for Transfer Students.

ACADEMIC DISCOVERY PROGRAM (ADP)

The Academic Discovery Program (Pennsylvania ACT 101) is a special program which provides free counseling and tutorial support services for students whose records indicate that they could benefit from extra academic assistance and who also meet certain criteria of financial need. The ADP helps students establish good study habits, clear career goals, and the ability to compete successfully in the academic setting. Members of the ADP participate in a free pre-college summer program before their freshman year and in assigned counseling and tutorial sessions along with their regular courses during the academic year. As much as possible, each student’s program is tailored to his or her individual needs. To obtain application materials, write or call the
Day Admissions Office, 951-1500. For further information regarding ADP or the Community Academic Opportunity Program Grant, see page 27, or call the Academic Discovery Program office, 951-1084.

ADMISSIONS FOR VETERANS
All veterans with proof of a high school diploma or its equivalent, who have not been dismissed or placed on probation at another institution of higher learning since separation from service, are eligible to enroll as full-time students at La Salle College. Veterans should telephone the Veterans Affairs Office for specific information.

CONTINUING EDUCATION FOR WOMEN
The Continuing Education for Women (CEW) program at La Salle is designed to ease the transition for adult women who wish to begin or resume their college education. Women may enter this program in the Day or Evening Division whether they are interested in taking single courses or pursuing a degree. Any woman 24 years or older who has a high school diploma or equivalent is eligible to apply; no standardized examinations are required for admission. The program includes an orientation day, study skills workshops, support groups, individual counseling, academic advising, assistance in finding tutors, the availability of day care facilities, and social get-togethers for CEW students. CEW encourages potential students to have an interview with a staff counselor to discuss questions she may have about her educational and career goals, and to clarify information about La Salle courses and schedules. To arrange an interview or to apply for admission through the program, visit the CEW office, located on the lower level of College Hall or telephone 215-951-1060. The office hours are 9:30 to 8:30 Monday through Thursdays, 9:30 to 4:30 on Fridays.

ACCOMMODATIONS FOR RESIDENTS
The residence facilities accommodate approximately 1,000 students and consist of nine co-ed halls, two apartment complexes and several special interest houses. To apply for on-campus residence, an application for housing and the required residence deposit should be submitted when confirming acceptance to the College. The Resident Life Office will then inform the student of the application status. If a space is reserved, and the student decides after July 15 not to live on campus, the entire residence deposit is forfeited.

Each student in residence is provided a furnished room. Students are to supply their own linen. Adequate laundry facilities are available within the residence complexes, and many personal needs such as toilet articles, paper supplies, towels, sportswear and magazines may be purchased at the campus store.

The residence halls provide complete living, learning and recreation facilities. There are air-conditioned lounge areas, recreation areas and 24-hour quiet study lounges. Residents are permitted to have cars on campus. Complete detailed information regarding resident life and facilities can be found in You've Got A Lot to Live: The Resident Student Survival Guide published by the Resident Life Office.

Food service is provided in the College Union Dining Hall and adjoining Snack Bar Cafe. All hall and house residents must be on a meal plan. Since the meals must be planned on the basis of total participation, no adjustments in fees can be expected for meals not taken on campus. Students have a variety of meal plans to choose from. Special diets for medical reasons can be arranged through the Food Service Department.
Both the residence and dining facilities are closed during the Thanksgiving, Christmas and Spring recesses.

The resident life administration is headed by a professionally trained staff who reside there. In addition a Resident Assistant resides in each living unit and acts as a paraprofessional counselor, referral agent, administrator, and activity programmer. The graduate and undergraduate staff receive room and board compensation and are an outgoing and diversified group who are interested in working with students to make college life in residence an enjoyable and educational experience.

For further information about resident life, contact the Resident Life Office, St. George Hall, Telephone 215-951-1550.

OFF-CAMPUS HOUSING

In order to assist members of La Salle in locating available housing in the surrounding community, a variety of services are available through the Off-Campus Housing Service. They include: off-campus housing referral listings; roommate referral lists; general off-campus rental information (tenant-landlord relations, roommate selection, consumer protection, etc.).

La Salle College does not inspect available accommodations or screen prospective landlords and tenants. Any questions pertaining to off-campus housing should be directed to Off-Campus Housing, Student Life Office, La Salle College Union, Room 205, Telephone 215-951-1370.

COURSE SELECTION

All accepted students will receive a course selection form in the mail in early April. At this time they may indicate their choice of courses for both the fall and spring terms. Additional academic counseling is available to freshmen during the Pre-College Counseling Program in the summer.

STUDENT HEALTH SERVICES

The La Salle College Dispensary provides medical diagnosis and treatment of minor illnesses and injuries and is available to the student body for initial care, first aid, and health information. Located in the North Complex of the Residence Halls on Olney Avenue, directly across from Hayman Hall, it is open Monday through Friday. The Dispensary is staffed by a registered nurse who serves as the Director. College physicians see students in the Staff Clinic of Germantown Hospital five days a week and a physician is available in the Dispensary weekly. The Clinic is located on the first floor of the hospital and referrals to the clinic are made by the nurse from the Dispensary. All students are required to complete the Student Health Services-Health Questionnaire prior to their attendance at the College.

Both medical and dental emergency services have been arranged with local hospitals, and a complete list of private physicians of every medical speciality is also available. Students are responsible for the costs of these treatments.

Health insurance is strongly advised for all students, especially those in residence, and is required for all international students. Students who are under 23 years of age generally can be covered under their own family Blue Cross (Hospital Insurance) and Blue Shield (Medical-Surgical Insurance) program while enrolled as full-time college students. Information concerning special Students' Blue Cross and Blue Shield plans for those not covered by family plans is available.

'Students living in the residence halls are required to participate in one of the meal plans.

In view of rising costs, La Salle College must reserve the right to amend or add to the charges at any time and to make such changes applicable to students presently enrolled as well as to new students.

METHOD OF PAYMENT

Students are billed twice a year for one-half of the annual tuition and the room and board costs. Invoices for the fall semester are due in mid-August and for the spring semester in mid-December. Payment in full of the semester invoice within the time prescribed is required for the completion of registration and inclusion on the official class lists. The College does not carry open student accounts. Master Charge and VISA credit cards may be used for payment of College expenses.

GRADUATION FEE

A graduation fee of $40.00 is due and payable in the spring semester in which the degree will be awarded. The College cannot be responsible for the inclusion in the
graduation program of any candidate who pays fees after the deadline set at the billing date. The graduation fee covers the Senior-Faculty Reception, baccalaureate services, the cost of the diploma, the use of cap and gown, and all other expenses incidental to the commencement exercises. No candidate may be recommended for a degree, diploma, or certificate until the graduation fee and all other financial obligations have been paid.

REFUND OF TUITION

Under certain circumstances, students who withdraw may receive a partial refund of tuition. There are no exceptions to the following terms and conditions.

*Fall and Spring Undergraduate Semesters*

For the purpose of refund, the student shall be considered to be in continuous attendance up to and including the date of submission of proper notice of withdrawal. The notice of withdrawal must be addressed to the Dean of the particular school. Ceasing to attend or giving notice to an instructor does not constitute proper notice. The allowed percentage of refund shall be based upon the official withdrawal date which shall be determined by the date the notice of withdrawal is received by the Dean, or the postmark, if mailed.

For the purpose of refund computation, a week shall be defined as the period of seven successive days beginning with the official College opening of classes and NOT the first day in actual attendance by a particular student.

In those instances where a student’s educational expenses were satisfied in whole or in part by Title IV Program Funds, and a refund of these educational expenses is authorized, that refund will be proportioned in accordance with U.S. Department of Education regulations governing refunds and cash disbursements made directly to students. Under those regulations, priority is given to the return of funds to Title IV Assistance Programs in the following order: State Grant Programs, SEOG, NDSL, Pell Grants, Guaranteed Student Loans. Students should be aware that the regulations may prevent the refund of any personal funds used for payment of tuition and fees. In instances where a student has received a cash disbursement prior to the recording of his or her withdrawal, the student may be required to return those funds to the College.

RESIDENCE HALL REFUNDS

**Meal Plan**

If a student leaves the Residence Halls, a pro-rata refund will be made for the unused portion of his or her meal plan.

**Room Rent**

Regardless of the reason for vacating, refunds will not be made for unused room rent.
Financial Aid

No student is denied admission because of financial need. The financial aid programs at La Salle provide opportunities for scholarships, grants, loans, and student employment. Eligible applicants for financial aid will be considered for any form or combination of forms of assistance.

Since the primary responsibility for college expenses rests with the parents and student, financial assistance is normally granted on the basis of financial need together with demonstrated and potential academic achievement. Incoming students seeking assistance are required to submit a Pennsylvania State Grant/Federal Student Aid Composite Application before February 15. Forms are available at the guidance office of the secondary school or from La Salle College. Students are also expected to apply to appropriate state grant programs.

CHRISTIAN BROTHERS' SCHOLARSHIPS

La Salle College offers fifteen full tuition scholarships to students graduating from all Catholic high schools in the Philadelphia and Camden dioceses and from high schools conducted by the Christian Brothers of the Baltimore Province. Selection is based on academic excellence and potential for leadership in the La Salle community. Applications are restricted to students nominated by their high school principal. Scholarship application forms will be sent directly to nominees designated by the principals. All completed scholarship materials must be received by the appropriate office at La Salle no later than February 1.

COMPETITIVE SCHOLARSHIPS

Twenty seven scholarships providing full tuition are offered annually to high school seniors who have demonstrated exceptional academic aptitude and achievement. This scholarship competition is open to high school seniors who have scored approximately 1300 in the College Board Scholastic Aptitude Test and who have a class rank in the top 10 or top 10% of the high school graduating class. Application materials may be obtained by contacting the Director of the Honors Program. The completed scholarship materials must be received by the appropriate office at La Salle no later than February 1.

NATIONAL MERIT GRANTS AND SCHOLARSHIPS

Students selected as National Merit Finalists, semi-finalists, and letter-of-commendation recipients are eligible for grants through the College. Finalists qualify for $800 per academic year, semi-finalists receive $600 per academic year, and commendation recipients are granted $300 per year. These are awarded to incoming freshmen and can be renewed yearly pending completion of the Pennsylvania State Grant/Federal Student Aid Composite Application.

La Salle College offers two National Merit Scholarships annually ranging from $250 to $1500 per academic year. Students are selected by National Merit Scholarship Corporation from those qualifying in the College Boards and indicating La Salle College as the first choice institution. Nominees should complete a Pennsylvania State Grant/ Federal Student Aid Composite Application.
CHRISTIAN BROTHERS' GRANTS

La Salle College offers a limited number of partial grants to students who have established exceptional financial need through a needs analysis system, e.g. Pennsylvania State Grant/Federal Student Aid Composite Application. These partial grants can be renewed yearly pending completion of the needs analysis form.

ATHLETIC GRANTS

La Salle College offers grant to men and women excelling in athletics. Contact with the La Salle Athletic Department is made by the student's high school coach. These grants can be maintained through the four years of study at La Salle College.

COMMUNITY ACADEMIC OPPORTUNITY PROGRAM (CAOP)

The Community Academic Opportunity Program is a grant available to students who have been accepted into the Academic Discovery Program. It is designed to give financial assistance to economically and educationally disadvantaged minority students from the surrounding neighborhoods; specifically, a student must reside in zip code areas 19119, 19120, 19138, 19141, 19144 or 19150.

The basic CAOP grant includes $1500 per year towards the cost of tuition and up to $150 per year for books; CAOP students must also apply for PHEAA and Pell through the filing of a Pennsylvania State Grant/Federal Student Aid Composite Application.

Further information and application materials are available from high school counselors or the Admissions Office of La Salle College.

PELL GRANTS (Formerly BEOG)

The Pell program is a federally administered program available to needy students taking no fewer than six credits per term. Students may receive from $200 to $1900 per academic year. Applications are available from your high school guidance counselor or the La Salle Financial Aid Office. Eligibility is determined by the federal government and notification is sent directly to students. In addition to financial need, a student must make normal progress toward a degree to retain eligibility.

PENNSYLVANIA HIGHER EDUCATION GRANTS (PHEAA) AND OTHER STATE GRANT PROGRAMS

Pennsylvania state grants are administered by Pennsylvania Higher Education Assistance Agency and range from $100 to $1350. Eligible students must demonstrate financial need, maintain Pennsylvania residency, be enrolled on a full-time basis, and complete a minimum of twenty four credits per year. Applications are available from high school guidance counselors or the Financial Aid Office.

Other states in addition to Pennsylvania have scholarship programs for their residents. Information and applications would be available from the respective State Boards of Education.

NATIONAL DIRECT STUDENT LOANS

The NDSL provides needy students with long-term, low interest loans for educational expenses. The College determines the amount of the loan to be offered within certain federal guidelines. Interest at the rate of 5% per year on the unpaid balance begins to accrue nine months after the student ceases at least half-time study. The loan repayment
period must not exceed ten years, depending upon the total amount borrowed. Students must make normal progress toward a degree to maintain eligibility. La Salle College requires submission of a Pennsylvania State Grant/Federal Student Aid Composite Application to determine eligibility.

COLLEGE WORK STUDY PROGRAM
The College Work Study program provides needy students with access to part-time jobs in both on- and off-campus locations. The funds earned do not provide direct tuition relief, but are intended to help meet incidental expenses encountered by students. Students are paid on a weekly basis for the number of hours worked. The total amount that may be earned through the work program is determined by students' needs and availability of funds at the College. Employment is limited to an average of twenty hours per week while school is in session. La Salle College requires submission of a Pennsylvania State Grant/Federal Student Aid Composite Application for eligibility evaluation. In addition to demonstrating need, students must make normal progress toward a degree to maintain eligibility.

SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS (SEOG)
The SEOG program is a federally funded college administered program available to needy students in amounts up to $2000 per academic year. La Salle College requires submission of a Pennsylvania State Grant/Federal Student Aid Composite Application for eligibility evaluation. In addition to financial need, students must make normal progress toward a degree to retain eligibility.

STATE GUARANTEED LOANS (SGL)
This loan program is administered by state governments with the assistance of participating lending institutions. Students taking at least six credits may apply to the program and receive as much as $2500 per academic year, at the rate of 9% interest per year. Interest will begin to accrue six months after the student ceases at least half-time enrollment. Students should contact home state bank systems regarding program participation. Processing of the application may take as long as eight weeks.

ARMY ROTC SCHOLARSHIPS
Army ROTC scholarships are offered for four, three, and two years. The four-year scholarships are awarded on a worldwide competitive basis to U.S. citizens who will be entering college as freshmen. The three- and two-year scholarships are awarded competitively to students who are enrolled or are eligible for advanced placement in ROTC, including those who are cross-enrolled.

Students who attend the Basic Camp of the two-year program may also compete for two-year scholarships.

The scholarships pay for tuition, textbooks, lab fees, and provide a living allowance of up to $1,000 each year the scholarship is in effect. The value of the scholarship depends on the tuition and other educational costs of the university or college attended.

Contact the Department of Military Science, 215-951-1365/1366, for further information.

PRIVATE SCHOLARSHIPS
There are many special assistance programs that offer scholarships, grants, and loans to
students. You may qualify for one of these programs through religious affiliation, ethnic heritage, parents' employers, organizational memberships, or a special talent. Programs through state and/or federal agencies—e.g., Veterans' Bureau, Bureau of Vocational Rehabilitation and Social Security Bureau—may also offer financial aid to qualified students. Knowledge of these programs is available through books and pamphlets on scholarship and financial aid in your school or local library or in the Financial Aid Office.

Information on private scholarships frequently received by La Salle students may be obtained from the following sources:

APPLICATION PROCEDURES FOR FINANCIAL ASSISTANCE

A candidate who desires financial assistance must submit the Pennsylvania State Grant/Federal Student Aid Composite Application no later than February 15. Applications received after that date will be considered only if there are funds available.

Financial aid awards will be announced approximately six weeks after acceptance into the College.

Most types of financial aid require annual application. All applications for renewal consideration must be filed by March 15.

La Salle College's financial aid programs are organized to help the able student who needs financial assistance. As long as there is continuing evidence of academic progress as well as financial need, the College will make every effort to assist the student.
Academic Programs and Procedures

Registration

During an announced pre-registration period in the spring term, a student meets with his chairman or adviser to plan his roster of courses for the upcoming year. On the basis of this pre-registration, the Registrar’s Office publishes a Master Roster listing courses, times scheduled, and teachers assigned. The student then chooses his course section, time, and teacher. The Business Office will bill the student in August and December for the courses chosen, completing the registration process.

Students who have not completed mail registration will register on campus during the week before classes begin.

If a student cannot register during this period because of circumstances beyond his control, he may complete registration during the first two days of classes.

Late registration is permitted only in the most unusual circumstances and requires the permission of the dean of the school and the payment of a fee of $10.00.

Program of Studies

The program of studies prescribed by the student’s adviser and approved by the dean of the school in which the student is enrolled is his official roster of courses.

It is the student’s responsibility to see that all the requirements of his program are fulfilled. He should have in writing from the dean any exceptions to the prescribed program which may be granted him.

A student may be permitted to change from one program to another, or from one area of instruction to another, only when his previous record indicates that he may profit by such a change. In any change of this type the student must have the written permission of his chairman and the dean of his school. This change may entail taking approved summer courses or an additional semester in college. In no case may a student who transfers receive promotion or a degree sooner than he would have received it had he not transferred. No degree may be received less than one year after change of curriculum.

Classification of Students

A full-time student carries a minimum of twelve semester hours, although normal progress toward a degree requires an average of fifteen hours a week. A student’s program may require more hours per week in some areas of instruction.

Class level is determined by the number of credit hours earned by the student. Students having 0 to 23 credit hours are considered freshmen; those who have earned 24 to 53 credits are sophomores; those having 54 to 83 hours juniors; and those with more than 84 credit hours are classified as seniors.

Part-time students carry a roster of less than twelve hours per week. Students in this category will require more than the normal four years in which to earn a degree.

Students who do not fulfill certain admission requirements may be admitted to follow particular courses and are considered as special students. They do not register for a degree granting program. Credits earned by a special student may be counted towards a
degree as soon as he has met all the requirements for admission and candidacy for a
degree provided that the credits thus earned be applicable to his program of studies for
the degree. A special student cannot hold a scholarship nor take part in extracurricular
activities.

URBAN STUDIES
Students may design a minor concentration by choosing distribution requirements and
electives in Urban Studies. The Economics Department supervises this program but it is
multi-discipline in all essentials. Economics, Political Science and Sociology faculty
co-teach most of the courses and professors from an even wider group of disciplines
serve in close advisory capacities.

After five introductory courses students complete their Urban Studies concentration
with a senior semester of integrated seminars and field work. Placements and projects
are chosen to complement major programs. At all levels students and faculty work
closely with the staff of the La Salle Urban Studies and Community Services Center.

CONCENTRATION IN INTERNATIONAL STUDIES
Any student, regardless of his or her major field, can pursue as an interest the Concentra-
tion in International Studies. This multi-discipline program allows the student to select
courses offered by many departments.

The Concentration in International Studies requires a total of seven courses. At least
four of these can also fulfill other college requirements.

Economics, Political Science, and Business students will have to use only two or three
 electives in order to complete the program. Other students will have to devote about
four elective courses for this purpose.

Students planning to spend one or two semesters abroad will probably be able to
complete a portion of the program there and should meet with the Director before
departing.

Interested students should see Dr. Joshua Buch, the Program Director, College Hall
314, Ext. 1030.

WOMEN’S STUDIES
Students of any major may design a concentration by choosing at least six distribution
requirements and electives from the multi-disciplinary offerings of Women’s Studies. An
optional field internship may constitute one of the six required courses.

Women and men students interested in shaping a Women’s Studies concentration
should see one of the following professors who jointly coordinate the concentration:
Donna Bishop, Olney 366, x1118—Sociology
Arleen Dallery, Wister 222, x1326—Philosophy
Caryn McTighe Musil, Olney 154, x1156—English
Barbara Levy Simon, Olney 369, x1114—Sociology

DUAL MAJORS
In some circumstances, a student with special needs and abilities may be permitted to
major in two departments or to follow a special interdepartmental program. After
developing the program in consultation with both departments, the student must obtain
approvals of both chairmen and of the dean. Arrangements should normally be com-
pleted during the spring semester of the sophomore year.
HONORS PROGRAM
The Honors Program is designed to provide the most academically talented students with an enriched program of general studies that will be both challenging and stimulating. The freshman honors student, as an apprentice in the program, studies in honors sections of two or three required courses. If he proves himself able and interested, he continues with honors courses in such areas as religion, philosophy, and English, which offer more depth and more advanced reading. In the upper division, such courses will frequently be given by distinguished visiting professors.

In his last two years, the honors student may, with the approval of his chairman, substitute an independent study course in each semester for any regularly scheduled course except religion or seminar. Class meetings in these courses are less frequent, and emphasis is on individual reading and research. Students who complete the requirements of the Honors Program are graduated with General College Honors. Further information on the program is available from the Director of the Honors Program.

COOPERATIVE EDUCATION PROGRAM
The Cooperative Education Program permits students to integrate classroom theory with practical experience by alternating specific periods of attendance at the College with specific periods of employment.

A student may begin a coop program as early as the sophomore year and still complete requirements for graduation within four and a half years. Cooperative education can add relevance to a student’s academic program, furnish practical experience, afford an understanding of human relationships outside of one’s peer group, and provide realistic vocational information as well as financial assistance.

Students interested in learning more about this new program should see the Director of Cooperative Education.

LA SALLE IN EUROPE—FRIBOURG, SWITZERLAND
Recognizing the advantages of travel in other countries and first-hand contact with other cultures, La Salle College offers a sophomore and junior year program which provides its students a first-hand opportunity to study at the University of Fribourg in Switzerland. Nestled in the valley of the Sarine, Fribourg is one of the most beautiful cities in one of the most beautiful countries in the world.

A unique feature of the University of Fribourg is its official bi-lingual character: courses are offered in both French and German, often the same course in either language. In conjunction with Providence College, La Salle College forms part of the American College Program of the University of Fribourg. This organization offers many courses in English.

In most instances, students will be housed in private homes or apartments located near the university. The rooms are chosen by the resident director of the program. Students accepted into the program attend an orientation course during the semester prior to departure. Those students deficient in French or German will be permitted to enroll in special courses during the summer before departure. A 2.5 Grade Point Average is required. Interested students should see Dr. Leonard Brownstein, Adviser to U.S. Students Abroad.

UNDERGRADUATE LANGUAGE PROGRAM—UNIVERSITY OF SEVILLE
La Salle College is a member of the Council on International Educational Exchange and
a consortium of 40 colleges and universities which forms a Cooperative Study Center in Seville, Spain.

The University of Seville is one of the oldest universities in Spain. Students may apply for a semester or an entire academic year. Each five-month session consists of two cycles. The first provides intensive language training, and the second offers a variety of special courses including Spanish language, literature, art, contemporary civilization, and teaching English as a foreign language. Students are housed in private homes. Meals are taken at the place of residence.

The principal aims of the program are:
1. To help the student achieve fluency in the spoken and written language.
2. To give the student the opportunity to experience and understand the nature of Spanish society and institutions through constant and direct exposure to the nation's history, art, and contemporary life.
3. To prepare the future teacher of Spanish for the role which he will play in the classroom situation.

Interested students should see Dr. Leonard Brownstein, Adviser to U.S. Students Abroad.

NURSES' COOPERATIVE PROGRAM

La Salle participates in a cooperative program with a number of area hospitals in teaching the basic sciences to the students from these hospital schools. The essential program remains under the control of the parent schools. These students receive college credit for those courses attended at La Salle.

URBAN STUDIES AND COMMUNITY SERVICES CENTER

The Urban Studies Center seeks to involve the resources of the College in the larger urban community. Its major programs are: (1) the Communiversity—non-credit adult education designed for area residents, (2) technical assistance to neighborhood groups in grant and program development, and (3) community organization services focused on the needs of the low-income, multi-racial and ethnic communities bordering the College. The Center also draws upon the experience of neighborhood leaders to enrich its programs and La Salle's Urban Studies curriculum. Students and faculty with urban research and social service interests are encouraged to visit the Center, located at the corner of Wister and Clarkson, or to call 951-1188.

ACADEMIC DISCOVERY PROGRAM (ADP)

For further information, see page 21.

COURSES AT CHESTNUT HILL COLLEGE

The cooperation of La Salle with Chestnut Hill College, a Catholic college for women situated about five miles from La Salle, results in a valuable coordination of programs. Students from either of the associated colleges can register for courses at the other college, with full credits, and without the payment of extra tuition. The calendar for the academic year in both colleges is identical. Students wishing to register for courses offered at Chestnut Hill will follow the same procedure as when they register for courses at La Salle. Classes at Chestnut Hill begin on the hour, at La Salle on the half-hour.

Students interested in preparing for elementary education may take part in a special cooperative program with Chestnut Hill College, which may be arranged in consultation with the Dean of the School of Arts and Sciences.
SUMMER SESSIONS
A variety of courses are offered in both day and evening sessions during the summer. A student may use these courses to enrich his academic program, to lighten his regular schedule, to make up failures, or, in some instances, to accelerate his progress toward a degree. The Summer Sessions are administered by the Dean of the Evening Division.

Properly qualified applicants from other accredited institutions are also admitted to the Summer Sessions.

ARMY ROTC—RESERVE OFFICERS’ TRAINING CORPS PROGRAM
Students get leadership and management training in the military science program — and they graduate with an officer’s commission as well as a degree in their chosen academic major. Successful completion of the advanced ROTC program results in second lieutenant status in the active or reserve components of the U.S. Army.

Students (male and female) may participate in the ROTC program at La Salle by so specifying on their course selection form. No service obligation is incurred during the first two years of the program. Military Science 100 and 200 level courses are tuition free to full-time students. See page 90 for course descriptions.

Students who successfully complete both MSC 100 and 200 level courses may be chosen for the advanced course. Advanced course and ROTC Scholarship recipients also earn a monthly stipend of $100.00. (See page 29 for more information on the ROTC Scholarship Program.)

Students transferring to La Salle, or current students who have not previously participated in ROTC, may take advantage of the special two-year program. They should make arrangements through the Department of Military Science as soon as possible.

Additional information is available from the Department of Military Science, La Salle College, Philadelphia, PA 19141, 215-951-1365.

AIR FORCE RESERVE OFFICERS’ TRAINING CORPS
La Salle students are eligible to participate in Air Force Reserves Officers’ Training Corps (AFROTC) through a cross-enrollment agreement with St. Joseph’s University. All Aerospace Studies courses will be held on the St. Joseph’s campus. The AFROTC program enables a college student to earn a commission as an Air Force officer while concurrently satisfying requirements for a baccalaureate degree.

For further information on the cross-enrollment program, scholarships, and career opportunities, write or telephone the Professor of Aerospace Studies, AFROTC Det 750, St. Joseph’s University, Philadelphia, PA 19131, 215-879-7311.

ATTENDANCE POLICY
Students are expected to attend classes regularly. Absences are permitted to provide for conditions beyond the control of the student. Ordinarily, these would be equal to twice the semester hours scheduled for the course; for example, six absences in a three-hour course. Attendance is noted from the first regular class meeting regardless of the time of registration.

EXAMINATIONS
The last week of each semester is set apart for final examinations. Examinations to
measure student progress are given at mid-term. Students who, for satisfactory reasons, fail to take a semester examination as scheduled may take a delayed examination.

**GRADES**

The following system of grades is used in measuring the quality of student achievement.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A Superior</td>
<td>Very Good</td>
</tr>
<tr>
<td>C Average</td>
<td>D Passable</td>
</tr>
<tr>
<td>F Failure</td>
<td>I Incomplete</td>
</tr>
<tr>
<td>W Withdrawal</td>
<td>S Satisfactory</td>
</tr>
<tr>
<td>U Unsatisfactory</td>
<td>X Audit</td>
</tr>
</tbody>
</table>

The weight of factors contributing to the final grade will be determined by the instructor.

**Incomplete:** The I grade is a provisional grade given by an instructor to a student who has otherwise maintained throughout the semester a passing grade in the course, but who has failed to take the semester examination for reasons beyond his control. Make-up examinations for the fall semester must be completed before the opening day of the spring semester. All I grades that have not been removed within three weeks after the last regular examination of the semester become F's. When it is physically impossible for the student to remove this grade within the time limit, he must obtain a written extension of time from the dean of his school.

**Withdrawal:** The W grade is assigned when a student withdraws from a course with the dean's permission before its completion. Ordinarily permission for withdrawal is not granted after mid-term examinations.

**Satisfactory or Unsatisfactory:** Students may take free electives under a pass/fail option. If they indicate this option to the Registrar within three weeks after the course begins, the grade for the course will be recorded as S or U. Such a grade will not affect the cumulative index, but semester hours graded S will be counted toward the total required for graduation. The purpose of this option is to encourage choice of challenging electives, including those outside the student's major field.

**Audit:** The X grade is assigned for courses audited. A student wishing to audit a course must so indicate at registration and must have permission from his instructor and dean.

**Courses repeated:** If a student repeats a course, only the higher grade is counted in the academic index. A student may not repeat a course more than once without permission from his dean.

**CLEP EXAMINATIONS**

Students may receive credit for approved courses taught in the La Salle College curriculum through participation in the College Level Examination Program (CLEP) of the College Entrance Examination Board, or through other authorized standardized testing procedures or in-house tests. Students who wish to attempt credit through examination must receive permission from their Dean's office to determine which examinations are acceptable to La Salle, and to obtain permission for participation.

While the Academic Dean determines the credits to be granted for CLEP and other authorized standardized testing procedures, the individual department designates the subject examinations which are applicable to specific courses at La Salle College. Students may not be granted credit for a general examination CLEP course after completion of the freshman year, and a student who has received credit through conventional courses or through standardized testing for one or more advanced courses in a discipline may not challenge a beginning course in that discipline. No grades are assigned to courses credited through authorized standardized testing procedures.
Students who elect to receive credit through authorized standardized testing procedures or approved in-house tests will pay an administrative fee of $30.00 for each course examination taken.

**STUDENT RESPONSIBILITIES**

A student's matriculation at La Salle College is a voluntary decision which involves acceptance of the responsibility to perform academically and to behave socially in ways consistent with the goals and objectives of the College. When registering at La Salle, the student accepts College rules and regulations and the authority of the College to exercise disciplinary powers including suspension and dismissal. As a member of student organizations and as an individual, the student assumes responsibility for knowing and complying with all existing regulations in the College Bulletin, the Student Handbook, The Resident Student Survival Guide and any rules and regulations subsequently promulgated through appropriate publication to the College community. Copies of the Student Handbook may be obtained from the Student Life Office.

**STUDENT REPORTS**

A progress report is submitted to the Dean's Office by each instructor at the middle of each term. Final grades are submitted to the Registrar's Office at the end of a semester and these are made part of a student's permanent record. A report of semester grades is mailed to the student within two weeks after final examinations.

**SCHOLARSHIP INDEX**

A scholarship index system is used at La Salle to determine a student's average grade. In determining the index, each letter grade is ascribed a numerical value, called grade points. A is valued at 4 grade points; B is valued at 3 grade points; C is valued at 2 grade points; D is valued at 1 grade point; F is valued at zero grade points.

A grade point score is calculated for each course by multiplying the numerical equivalent of the letter grade by the number of semester hours. The index, or the average grade of all courses, is found by dividing the sum of the grade point scores for all courses by the total number of semester hours of course work attempted.

**ACADEMIC STANDING**

First year students are required to earn a minimum average of 1.50 to be in good academic standing: second year students, 1.75; third year students, 1.90. Averages are computed at the completion of each semester.

**DEAN'S HONOR LIST**

The Deans' Honor List is published at the termination of each semester.

Those students who have a cumulative average of 3.4 are placed on the Deans' List. To be eligible for this list, a student must have complied with all the regulations of the College and must have earned 24 credits with letter grades A, B, C, or D at La Salle College.

While students on the Deans' List are excused from class attendance regulations, they are expected to fulfill the requirements of every course rostered. They are also eligible for courses in the College's honors program.
ACADEMIC CENSURE

Academic censure may assume any one of three forms, depending on the student's academic standing. During the evaluation of student records at the end of each semester, a student will normally be subject to the form of academic censure indicated if the cumulative grade point average falls below the levels outlined.

(a) Probation. A student is placed on probation who has attained a cumulative grade point average of (a) less than 1.50 after the first or second term of freshman year, (b) less than 1.75 after the first or second term of sophomore year, (c) less than 1.90 after the first term of junior year, (d) less than 2.00 after the second term of junior year or during senior year. Such a student will be continued on probation until he has satisfied the conditions for good academic standing.

(b) Suspension. This is involuntary separation of the student from the College for a definite period of time, usually for two semesters. No academic work during a period of suspension will be accepted for a student’s academic record at the College.

(c) Dismissal. This is involuntary separation of the student from the College for an indefinite period of time. No academic work during a period of dismissal will be accepted for a student's academic record at the College.

A student is liable to suspension or dismissal: (1) when he has attained a cumulative scholarship index of (a) less than 1.00 during his freshman year, (b) less than 1.50 during his sophomore year, (c) less than 1.75 during his junior year, (d) less than 1.90 after his junior year; (2) when he is on probation for two successive semesters.

CREDIT FOR OFF-CAMPUS COURSES

Course work taken at other institutions by regularly-enrolled students at La Salle College may not be offered for credit unless the student has had written permission in advance from the dean of his school to take such courses. Credit is transferred only for marks of C or better. The student’s index may be affected only if the credit is for a course previously taken at La Salle.

REQUIREMENTS FOR A DEGREE

Students are responsible for filing an application for degree with the Registrar one year before the expected date of graduation.

The candidate for a degree must have completed course work equivalent to a minimum of 120 semester hours. Certain curricula may require a number of hours exceeding this minimum. In addition to completing the required hours, the student must:

(a) have obtained a C average or cumulative index of 2.00 in his prescribed program of studies,
(b) have fulfilled all course requirements prescribed for him by the chairman of the department in which he majored and approved by the dean of the school in which he is enrolled,
(c) have fulfilled the General Education and Distribution Requirements,
(d) have completed eight semesters as a full-time student, including the two semesters of senior year.
HONORS
The bachelor's degree with honors is conferred on a student who has completed his course at the College with an average of all marks not lower than 3.4 and who has not incurred the penalty of loss of good standing for disciplinary reasons.

The candidate for the bachelor's degree who has earned an average of 3.8 in all courses is graduated with the distinction Maxima Cum Laude.

The candidate who has earned an average of 3.6 is graduated with the distinction Magna Cum Laude.

The candidate who has earned an average of 3.4 is graduated with the distinction Cum Laude.

Honors are computed on the basis of the work done for eight semesters.

WITHDRAWALS
A student who withdraws from the College must submit a withdrawal notice to the dean of his school. The date of filing the withdrawal notice is considered as the date of withdrawal in all cases.

TRANSCRIPTS
Students may apply at the Registrar's Office for a transcript of their collegiate work. Official transcripts bearing the signature of the Registrar and the seal of the College are sent, at the request of the student, to other institutions and organizations. Students requesting transcripts for their own use are given copies marked "student copy." Each student is sent a copy of his transcript at the time of graduation. A fee of $1.00 is charged for an official transcript. When several copies are requested at the same time, the fee is $0.50 for each additional copy. The College requires at least one week's notice for the issuance of transcripts. No transcripts can be issued until all financial obligations to the College have been satisfactorily settled.
ARTS & SCIENCES
DEGREE PROGRAMS
The School of Arts and Sciences offers general or liberal arts programs and programs in science and mathematics. Within these two areas you may further specialize in a major field of study. In the liberal arts, the Bachelor of Arts degree is offered in art history, communications, economics, English, foreign languages, history, music, philosophy, political science, religion, and sociology. Concentration in the science area may lead to a B.A. degree in biology, chemistry, geology, mathematics, physics, or psychology.

The School also offers programs designed as preparation for health professions, law, public administration, teaching, social work, and work in criminal justice.

Preparation for the Health Professions
Students preparing for careers in the health professions (medicine, dentistry, veterinary medicine, podiatric medicine, optometry) generally major in biology or chemistry, but may elect to major in any program provided they schedule the required minimum science and mathematics courses to support their applications. The courses specified by the Association of American Medical Colleges for Medical School applicants are generally applicable as minimal requirement for any of the health professions: They are:

Chemistry ........................................ 12-16 sem. hrs.
Physics ........................................... 8 sem. hrs.
Biology ........................................... 8 sem. hrs.
Mathematics ..................................... 0-6 sem. hrs.

Most professional schools will accept these as minimal preparation, but recommend additional courses. Students should be alert to the fact that professional schools are interested in demonstration of aptitude in science and mathematics, and the courses taken must be those normally rostered by majors in these areas, not courses offered for non-major election.

In the normal review process in these schools, the applicant’s full undergraduate record is scrutinized. The strong liberal arts component in the La Salle curriculum will provide evidence of broad interest and rounded academic development. Evidence of leadership and active interest in associated activities will lend strong additional support to applications.

Normally the competition for placement in these programs results in high acceptance standards. Grade point averages ranging from 3.0 to 3.5 are representative of levels expected in these programs. Students are encouraged to consult with the health professions adviser concerning admissions criteria at various schools.

Preparation for Teaching
The teacher preparation program leads to eligibility for an Instructional I certificate to teach in either the secondary schools or to teach mentally and/or physically handicapped students in the elementary and secondary schools of Pennsylvania. The Pennsylvania Department of Education has granted program approval in the preparation of teachers of biology, chemistry, communications, English, French, German, Italian, Latin, mathematics, physics-mathematics, Spanish, special education, and comprehensive social studies. Students who satisfactorily complete the College’s requirements in these areas and are recommended by the Teacher Education Committee are issued teachers’ certificates. Those planning to teach outside of Pennsylvania should familiarize themselves with certification requirements elsewhere.

The Education Departmental Board, consisting of faculty members from the education department, one faculty representative for each of the subject areas of teacher preparation, and student representatives in the teacher preparation program makes
final intradepartmental decisions on planning, conducting, and evaluating the teacher preparation program. A Teacher Placement Office on campus aids graduates in obtaining positions.

For additional information on the teacher preparation program, see pages 53 to 56.

TEACHER CERTIFICATION PROGRAMS AND ADVISERS:
(Teacher certification is obtainable only in these areas.)

   English — Brother Lawrence Colhocker
   Biology, Chemistry, Mathematics, Physics —
     Brother Richard Hawley, Brother Hugh Albright
   Communications (Non-print media) — Brother Gerard Molyneaux
   Comprehensive Social Studies — Dr. Gary Clabaugh
   French, German, Italian, Latin, Spanish — Dr. John McCann
   Special Education of the Exceptional Child — Emotionally Disturbed, Mentally Retarded, Physically Handicapped, Learning Disabled, Brain Damaged —
     Dr. Preston Feden

(Further details on the specific requirements in each of these areas are available in the education department office or from the appropriate adviser.)

Preparation for Law

Law schools do not prescribe particular curricula for admissions. La Salle College, therefore, approaches the preparation for law on an individual basis, tailoring the program of each student to individual needs and desires. Thus, students may major in English, political science, history, etc., as preparation for law.

Any student considering law as a career, regardless of his major curriculum interest, is encouraged to seek early counseling with the pre-law adviser, Dr. Edward Domineske.

Preparation for Criminal Justice Professions

Students preparing for careers in criminal justice professions pursue a curriculum which combines liberal arts with intensive coursework in the behavioral and social sciences and specialized courses in criminal justice. A major in criminal justice qualifies the student for admission to graduate programs in criminal justice and prepares the student for entry-level positions in law enforcement, judicial administration, probation, parole and correctional administration.

Preparation for Social Work

La Salle's social work program is accredited by the Council of Social Work Education and offers the student an opportunity to earn the Bachelor of Social Work degree. The primary objective of the social work program is to prepare competent, generalist practitioners for entry-level positions in the social work profession. Building on a liberal arts foundation, a knowledge of basic social work theory is acquired. The student explores the psychological, social, economic and political phenomena that impact on people. There is a heavy emphasis on the development of skills needed to mobilize systems and resources for the enhancement of social functioning for the humanizing of institutions, and for the promotion of social change.

A secondary objective of the program is to prepare students for graduate studies in social work and other human service professions. To this end, a firm theoretical base is laid to support advanced study. Graduates from an accredited program are entitled to apply for advanced standing at some graduate schools of social work.
Graduates of the program have developed careers in both public and voluntary agencies. They are in such fields as child welfare, family services, aging and public welfare. Many graduates choose to go on to graduate school either directly or after having gained work experience.

Students considering the social work major are encouraged to make this known to the Director of the Program for assistance in planning an academic course of study.

**CURRICULUM**

The curriculum for Arts and Sciences students has four parts:

1. General Education—7 courses (21 credits)
2. Distribution Requirement—8 courses (24 credits)
3. Departmental Requirements for Majors—ordinarily not more than 15 courses (45 credits)
4. Free Electives—minimum of 10 courses (30 credits)

The General Education courses, which will normally be completed by the end of sophomore year, concern themselves with the basic skill of written communication and with such value-oriented subjects as literature, religion, and philosophy. Each of these departments offers several courses which can be chosen to fulfill the General Education Requirement.

The range of choice is further widened by the Distribution Requirement, which is to be fulfilled by the end of junior year. Courses offered under this requirement help provide some depth outside your major field and also offer a measure of flexibility so that you can shape your program in accord with your interests.

The number of courses each department requires of its majors will normally not exceed 15, leaving at least 10 courses to be used as free electives. Some departments require their majors to take courses outside their primary field. Students may present such courses in fulfillment of Distribution Requirements.

The College recommends that students planning graduate studies acquire a good background in languages, since most graduate schools require a knowledge of one or two foreign languages before granting higher degrees.

General Education courses may not be taken to fulfill Distribution Requirements.

1To satisfy Distribution Requirements with Foreign Languages, the student must take two courses in the same foreign language.

### MAJOR REQUIREMENTS

Requirements for majors in each department are listed along with that department’s course descriptions, beginning on page 45 of this catalog.

### FREE ELECTIVES

A student may choose to concentrate his free electives in a particular discipline to build a strong minor or may use these electives to diversify his background or broaden his interests. Free electives may be taken on a pass/fail basis. (See GRADES, page 34.)
PROGRESS RECORD

This chart offers a convenient way of planning and recording your academic progress. If you fill it out at the end of each semester and take it with you when you meet with your adviser for pre-registration, you will be assured of meeting the courses and hours required for graduation.

BIOLOGY*

BROTHER RICHARD HAWLEY, F.S.C., M.A., Chairman
Associate Professors: Bdzier, Lowery, Mickle, Muldoon
Assistant Professors: Hawley, Ksiazek, O’Connor, Seitchik
Instructor: Benthin

Required for Major in Biology: 17 courses

• Biology 201, 407-408, and additional biology courses to total 33 hours. (Biology 202, 203, and 301 are recommended by the department; sequence may be decided by the student.)

• Chemistry 111-112, 201-202

• Mathematics 113-120 (Biology 314 may be substituted if Mathematics 120 is taken as first course.)

• Physics 105-106

Biology 151-152. ANATOMY AND PHYSIOLOGY
D 4-8 credits
A basic course in the structure and functioning of the human body with emphasis placed on the interrelationships of the major organ systems. Three hours lecture, two hours laboratory; two terms.

Biology 153. (F) THE ANIMAL KINGDOM: FANTASY AND FACT
D 3 credits
For election in the distribution area by non-biology majors. A brief survey of the animal kingdom and its relationship to man. Consideration given to evolution, physiology, ecology, parasites, and genetics. Course incorporates lecture, visuals, and student investigations. One hour lecture, two hours lecture-laboratory.

Biology 154. (S) PLANTS: FLOWERING AND NON-FLOWERING
D 3 credits
For election in the distribution area by non-biology majors. A survey of the structure and metabolism of seed and non-seed plants. Consideration given to evolution, ecology, hormones, and basic systematics. Course incorporates lecture, visuals, and student investigations. One hour lecture, two hours lecture-laboratory.

Biology 155. (F) LIFE BEFORE BIRTH
D 3 credits
For election in the distribution area for non-biology majors. Lecture, visuals, demonstrations, and student investigation will illustrate the sequential formation of the human body from production of the reproductive cells, through fertilization and organ formation, to birth. In addition, common developmental problems and their causes will be discussed. Three hours lecture, no laboratory.

*Non-majors planning to elect biology courses above the 100 level must secure the permission of the chairman. Biology 201 is a prerequisite for all courses above the 200 level.
Biology 156. (S)  
VARIATION IN MAN  
3 credits  
For election in the distribution area for non-biology majors. General principles of genetic transmission and their application to man. Discussion of currently developing procedures for genetic control which might have an impact on man, and of existing problems stemming from genetic transmission and chromosomal abnormality. Lecture, visuals, demonstrations, and student investigation. Three hours lecture, no laboratory.

Biology 201. (F, S)  
THE LIVING ORGANISM  
4 credits  
Integrated principles of modern biology; the attributes of life and hypotheses of its genesis; the continuity of life and its diversification; energy sources and the biological energy cycles; cells, organisms, and their structure and communities. Required of all biology majors; normally taken as first major course; may be waived for advanced standing. Prerequisite: Chemistry 111-112. Three hours lecture, two hours laboratory.

Biology 202. (F, S)  
THE INVERTEBRATES  
4 credits  
Life processes, phylogenetic advances, and basic classification of the major pre-Chordate phyla with emphasis on their evolution and ecology. Three hours lecture, two hours laboratory.

Biology 203. (F, S)  
THE PLANT KINGDOM  
4 credits  
Functional anatomy, phylogeny, and basic systematics of non-vascular and vascular plants. Three hours lecture, two hours laboratory. Prerequisite: Biology 201.

Biology 251. (F, S)  
CLINICAL MICROBIOLOGY  
3 credits  
The physical and chemical techniques available for the destruction of microbes, the prevention of microbial contamination; role of specific pathogens in the etiology of human disease processes; chemotherapeutic and antibiotic preparations available to assist the body mechanisms. Recommended for nurses. Two hours lecture, two hours laboratory.

Biology 301. (F, S)  
THE VERTEBRATES  
4 credits  
Comparative systemic anatomy of the vertebrate classes; hypotheses of origin and radiation of the phylum Chordata. Laboratory dissections of representative Chordates from amphioxus to mammal. Two hours lecture, four hours laboratory.

Biology 303. (F, S)  
MICROBIOLOGY  
3 credits  
A lecture-laboratory course concerned with the role of micro-organisms in nature and especially in human affairs. Two hours lecture, two hours laboratory; one term.

Biology 305. (F)  
GENERAL PHYSIOLOGY  
3 credits  
Metabolic processes and associated physico-chemical phenomena of living organisms. Current hypotheses of muscle, endocrine, neural, respiratory, cardiovascular, and nutritional physiology. Prerequisite: Chemistry 201-202. Two hours lecture, two hours laboratory.

Biology 306. (S)  
NEUROMUSCULAR PHYSIOLOGY  
3 credits  
A physiological study of cardiac, skeletal, and smooth muscle and their relationship to the central and autonomic nervous systems. Two hours lecture, two hours laboratory.
Biology 308. (S)
MICROTECHNIQUE
3 credits
Histochemical and cytological techniques associated with the preparation of animal and plant materials for microscopic study. One hour lecture, four hours laboratory.

Biology 310. (S)
GENETICS
3 credits
Mendel's laws of heredity as observed in plants and animals, the scope and method of modern genetics. Two hours lecture, two hours laboratory.

Biology 312. (F)
RADIOBIOLOGY
3 credits
Nuclear technology as applied to life sciences; theory, instrumentation, and use of radioactive isotopes in animals and plants. Two hours lecture, two hours laboratory.

Biology 314. (S)
BIOMETRICS
3 credits
Analysis of experiments and research data in quantitative biology. Probability distributions, analysis of variance, rectilinear and curvilinear regression, and correlation. Three hours lecture, one hour laboratory.

Biology 315. (S)
PLANT PHYSIOLOGY
3 credits
Metabolic and physical processes of plants. Emphasis on photosynthesis, photorespiration, mineral nutrition, transpiration, phloem transport, intermediary metabolism, and hormonal activity. Prerequisite: Biology 201; recommended prerequisite: Biology 203. Two hours lecture, two hours laboratory. Offered in the spring semester of odd-numbered years.

Biology 316. (S)
PLANT ANATOMY
3 credits
Structure of plant tissues and organs, particularly those of higher vascular plants. Emphasis on vegetative organs, but reproductive organs are discussed. Structure correlated with function and/or habitat. Prerequisite: Biology 201; recommended prerequisite: Biology 203. Two hours lecture, two hours laboratory. This course is offered in the spring semester of even-numbered years.

Biology 318. (F)
EVOLUTION AND POPULATION GENETICS
3 credits
A presentation and analysis of the evidence for the evolution of life. Major topics include the origin of life and cellular organelles as well as the development of the diversity of life present today. Heavy emphasis on the ideas of Charles Darwin as expanded and modified by evidence from modern population genetics, cytogenetics and molecular biology. Offered in fall term of odd-numbered years. Recommended: Biology 310.

Biology 401. (F)
TAXONOMY OF THE ANGIOSPERMS
3 credits
Angiosperm systematics, field collecting and identifications; herbarium and greenhouse practice. Phylogeny, characteristics, and importance of the leading families of flowering plants. Offered in fall term of even-numbered years. Two hours lecture, two hours laboratory.

Biology 402. (F)
CELL BIOLOGY
3 credits
Physical properties, chemical structure, and metabolism of simple and specialized cells; recent advances in the techniques of cell culture and investigation. Two hours lecture, two hours laboratory.
Biology 403. (F)
PRINCIPLES OF ECOLOGY 3 credits
Basic concepts of ecological theory; physical and biotic factors affecting the evolution, behavior, and community organization of organisms. Three hours lecture with field observations.

Biology 404. (S)
FIELD ECOLOGY 3 credits
Project laboratory at La Salle Penllyn Biostation; supervised student research projects in terrestrial and aquatic ecology. Prerequisite: Biology 403. Six hours laboratory and field work.

Biology 405. (F, S)
HISTOLOGY 4 credits
The minute and ultra structure of mammalian primary tissues together with their functional relationships in the formation of major organ systems; histological basis of function is stressed. Two hours lecture, four hours laboratory.

Biology 406. (F, S)
EMBRYOLOGY 3 credits
Fundamental processes underlying vertebrate development and differentiation; the frog, chick, and human form the basis of instruction. Two hours lecture, two hours laboratory.

Biology 407-408. BIOLOGICAL CHEMISTRY 4-8 credits
The principles of physical chemistry as they apply to biochemical reactions and the principal biochemical species and reaction sequences, the role of these reactions in specific biological functions. Laboratory application of techniques of analytical chemistry to analysis of biochemical reactivity. Three hours lecture, three hours laboratory; two terms.

Biology 470. (F, S)
SPECIAL TOPICS IN BIOLOGY 3 credits
Presentation of review papers and discussions of assigned topics from main currents of biological research; participants to be recommended by department staff.

Biology 480-481. (F, S)
BIOLOGICAL RESEARCH 2-4 credits
For election, particularly by qualified students contemplating postgraduate studies. Intended to provide actual research experience under staff supervision. Permission of chairman required. Hours to be arranged.

CHEMISTRY

THOMAS S. STRAUB, Ph.D., Chairman
Professors: Barth, Demitras
Associate Professors: Straub, Tekel
Assistant Professors: Shallhoub, Sowers
Lecturer: Polek

Required for Major in Chemistry: 15 courses

- Chemistry 111-112, 201-202, 301-302, 305, 401, 402, 403
- Mathematics 120, 221, 222. (It is strongly suggested that chemistry majors begin with Mathematics 120 as freshmen.)
- Physics 105-106. (Physics 211 is excellent preparation for Chemistry 301 and 302, but is not absolutely required.)
- The department suggests that all chemistry majors have at least 400 hours of lecture and 500 hours of laboratory work. Computer Science 150, 153 or a reading knowledge of a foreign language, some advanced work in chemistry (Chemistry 308 or 470 strongly recommended).
and some research experience are recommended. This additional work may qualify a chemistry major for accreditation by the American Chemical Society. The chemistry program is accredited by the American Chemical Society.

**Chemistry 111-112.**
**GENERAL CHEMISTRY**

4-8 credits

A general course based on physical principles. Emphasis on elementary thermodynamics with applications to gases, solutions, heats of reaction, electrochemistry, ionic and non-ionic equilibria. Concepts of elementary quantum mechanics applied to spectral concepts and the theory of the chemical bond. Reaction kinetics applied to reaction mechanisms. Descriptive chemistry of the representative elements and transition metal complexes. Laboratory stresses the quantitative aspects of chemistry. Three hours lecture, three hours laboratory.
Chemistry 151. (F)  
CHEMISTRY OF THE LIFE SCIENCES  
4 credits  
A terminal course for students who wish to obtain a general knowledge of chemistry with emphasis on the processes in the body and in nature. Descriptive and some quantitative principles discussed. Three hours lecture, three hours laboratory.

Chemistry 170-171. (F, S)  
SPECIAL TOPICS  
3-6 credits  
Courses of general interest for students not intending to major in a physical science.

Chemistry 201-202.  
ORGANIC CHEMISTRY  
4-8 credits  
Chemistry of carbon compounds with emphasis on structure, stereochemistry, synthesis and reaction mechanisms. Application in allied fields. Laboratory introduces techniques involved in organic synthesis, analysis, and study of reaction mechanisms. Intended for majors in chemistry, biology, and all students pursuing careers in the health professions. Prerequisites: Chemistry 111-112. Three hours lecture, three hours laboratory; two terms.

Chemistry 301-302.  
PHYSICAL CHEMISTRY  
4-8 credits  
Elementary principles of physical chemistry discussed and illustrated by suitable laboratory experiments. The ideal gas, real gases, liquids, solids, elementary thermodynamics, thermochemistry, solutions, equilibria, kinetics, electromotive force, electrical conductivity, and chemical thermodynamics. Prerequisites: Chemistry 201-202, Mathematics 221-222. Three hours lecture, three hours laboratory; two terms.

Chemistry 305. (F)  
QUANTITATIVE ANALYSIS  
4 credits  
Neutralization, oxidation-reduction, chemical equilibria, colorimetry, and the methods of quantitative chemical analysis. Thorough training in volumetric, gravimetric, and colorimetric techniques. Three hours lecture, three hours laboratory.

Chemistry 306. (S)  
QUANTUM CHEMISTRY  
2 credits  
Quantum mechanics applied to the solution of some elementary systems. Discussion of chemical bonding. Introduction to elementary statistical mechanics using results derived from quantum mechanics. Prerequisites: Chemistry 301-302.

Chemistry 308. (S)  
BIOCHEMISTRY  
4 credits  
The chemistry of carbohydrates, fats, proteins, vitamins, enzymes, and hormones: emphasis on their roles in biochemical processes. Laboratory work illustrates common techniques used to prepare, identify, and assay biochemical materials. Prerequisites: Chemistry 201-202, 301. Three hours lecture, three hours laboratory.

Chemistry 361. (F, S, Summer)  
COOPERATIVE CHEMICAL EDUCATION  
3 credits  
A cooperative experience between the chemistry department and chemical industry to provide on-the-job training in fields relating to chemistry and industry. On approval of the chairman only.

Chemistry 401. (F)  
QUALITATIVE ORGANIC ANALYSIS  
4 credits  
A study of the classifying reactions of organic compounds as exemplified by the analysis of compounds and mixtures in the laboratory. Restricted to chemistry majors. Prerequisites: Chemistry 201-202. Eight hours of laboratory per week and individual conferences.
Chemistry 402. (S)
ADVANCED QUANTITATIVE ANALYSIS 4 credits
Theory and practice of physical measuring instruments with particular attention to the use of the instruments. Modern trends in analytical chemistry. Prerequisite: Chemistry 305. Two hours lecture, six hours laboratory.

Chemistry 403. (F)
ADVANCED INORGANIC CHEMISTRY 3 credits
The vector model of the atom, theoretical aspects of chemical bonding, descriptive chemistry trends relative to the periodic table, molecular structure and symmetry of molecules, and general discussion of the transition metals and their complexions. Prerequisites: Chemistry 201-202, 301-302.

Chemistry 404. (S)
ADVANCED ORGANIC TOPICS 3 credits
Designed to extend the knowledge of organic chemistry: emphasis on those topics not fully developed in the elementary course. An introduction to the literature of chemistry is also included. Prerequisites: Chemistry 201-202, 301. Three hours of lecture.

Chemistry 470. (F, S)
SPECIAL TOPICS 3 credits
Courses in “Polymers and Polymer Coatings” and in “Chemical Marketing” are offered as Special Topics in the Evening Division and are open to day students.

Chemistry 480 and/or 481. (F, S)
CHEMICAL RESEARCH 4-8 credits
Individual laboratory or theoretical work under supervision of a staff member. Restricted to chemistry majors. Hours to be arranged.

ECONOMICS

JOSEPH P. MOONEY, Ph.D., Chairman
Professors: Ciesla, Flubacher, Kane, Mooney
Associate Professors: Duffy, Geruson, Grady
Assistant Professors: Cairo, George, Ratkus

Required for Major in Economics: 14 courses
- Economics 101-102, 201, 203, 213, 214, 303, 304, 411, 412
- Mathematics 111-112
- Two courses in the social sciences (psychology, political science, or sociology).
Economics 101. (F)  
INTRODUCTORY ECONOMICS I  
3 credits
A study of the operation of the economic system, including a comparison of capitalistic and socialistic economies and consideration of the influence of government policies on economic activity. Emphasis on the U.S. economy and factors which determine employment, inflation, gross national product, and the money supply. A prerequisite for other economics courses except Economics 320, 411, 412.

Economics 102. (S)  
INTRODUCTORY ECONOMICS II  
3 credits
A continuation of Economics 101. Topics include: economic problems of the business firm; economic growth of society; urban problems associated with economic growth; economic approaches to ecological issues; international trade issues; economic problems of poor countries. Prerequisite: Economics 101.

Economics 201. (F)  
MONETARY ECONOMICS  
3 credits
A study of the monetary and financial system of the U.S. economy. Emphasis on the importance of the money supply, the demand for money, and interest rates, along with more recent developments in the study of monetary variables. Instruments of monetary policy discussed and evaluated in the context of contemporary economic theory; the position of the American financial system in the international financial network. Prerequisites: Economics 101, 102.

Major in Education:

La Salle College offers majors in Secondary and Special Education. Majors in Elementary Education and Business Education are offered in cooperation with Chestnut Hill College and St. Joseph's University respectively. All education majors who successfully complete the required sequence of courses and the baccalaureate degree will be issued, upon recommendation of La Salle College and the Education department faculty, a Pennsylvania Instructional I Certificate in their major subject or area of concentration (i.e. English, special education, etc.).

Before being accepted into the Professional Semester (Secondary Education majors) or The Professional Year (Special Education majors), students must have an overall index of 2.0 and an index of 2.5 or better in the associated major (English, mathematics, special education) and all education course work. Students must receive approval by the Teacher Education Committee before beginning student teaching. Recommendations are predicated upon successful completion of all course requirements and on the fitness of the individual for the professional position he or she has selected. All students must meet certain physical and medical standards to obtain an Instructional I Certificate to teach in the public schools of Pennsylvania. All candidates for teaching certification must take the Minnesota Teacher Attitude Inventory before and after the student teaching experience. The National Teacher Examinations (NTE's) are also required upon completion of the program.

Students not preparing for teaching may elect courses in education with the approval of the chairperson of the Education Department.

Requirements for Major in Secondary Education:

- Education 201, 203, 301, 470-471-472
- Psychology 101
- Courses designated for associated major (See Education Department brochure and area advisers for specific courses.)

La Salle College offers a program of studies that is approved by the Pennsylvania Department of Education and leads to the Instructional I certification in Comprehensive Social Studies, Communications (Non-print media), English, Biology, Chemistry, Mathematics, Physics, French,
German, Italian, Latin and Spanish. Application for admission into the teachers preparation program is normally made during the freshman year. Application forms may be obtained from the department chairperson. For further information, see Dr. Robert Vogel, Director of Secondary Education.

Requirements for Major in Special Education:

- Education 141, 201, 203, 241, 301, 304, 343, 344, 475-476
- Psychology 101 and two of the following:
  - Psychology 203, 206, 315, 406, 408
- Biology 155

La Salle College offers a program of studies that is approved by the Pennsylvania Department of Education and leads to Instructional I certification as Teacher of the Mentally and/or Physically Handicapped, K-12. This certificate enables successful graduates to teach severely/profoundly trainable, and educable mentally retarded children; emotionally disturbed children; learning disabled children; and physically handicapped children.

Students are expected to roster Education 201, Education 141, and Psychology 101 during the freshman year. All special education students must meet with a department faculty member during each preregistration period throughout the entire four-year program. This insures that all students are following the prescribed sequence of courses leading to a degree and to certification.

For further information, see Dr. Preston Feden, Director of Special Education.

Requirements for Major in Elementary Education and Business Education:

See chairperson of Education Department.

Religion-Education

This program has been designed for those students who wish to teach religion in the secondary school. Since religion is not an accredited subject in any state, no Pennsylvania Instructional Certificate can be issued.

Education 343. (F)  
CURRICULUM ADJUSTMENT  
This course is broad in scope and content, and focus is on the students developing their own ideas about special education by understanding current issues, approaches to teaching exceptional children, and the relationship of theory to practice. Helps the students adjust the school curricula to the needs of exceptional children. Tutorial work with a child or children who exhibit learning problems is required. (Two hours a week.) Prerequisites: Education 141, 203, 241.

Education 344. (S)  
DIAGNOSIS AND CORRECTION OF LEARNING PROBLEMS  
The student will learn about current theories of perceptual-motor, language, cognitive, academic, and social development. Based on this knowledge, students will assess a child's needs, plan and evaluate remedial programs based on the needs of children with learning problems. Tutorial work with a child or with children who exhibit learning problems is required. (Two hours a week.) Prerequisites: Education 141, 203, 241, 343.

Education 470-471-472. (F, S)  
THE PROFESSIONAL SEMESTER  
Affords education majors specific and general preparation for student-teaching experiences. Comprises one full semester and embodies instruction in Special Methods of Teaching in various disciplines; direct application of educational media, methods, and materials to teaching; seminars in developmental reading, and ten to twelve weeks full-time assignment to classroom observation and teaching in selected secondary schools.
The Professional Semester requires the student to participate on a five day a week, full day schedule. Prerequisites: field experience in education, Education 201, 203, 301 and approval of associated major and education department chairpersons.

SOVIET LITERATURE 3-6 credits
Socialist realism as a doctrine of art and literature in the Soviet Union. Readings from Gorky, Mayakovskiy, Babel, Olesha, Leonov, Zamyatin, Zoshchenko, Sholokhov, Ilf and Petrov, Simonov, Pasternak, Yevtushenko, Solzhenitsyn, and others.

**Russian 301. (F)**
ADVANCED GRAMMAR AND CONVERSATION 3 credits
Advanced grammar exercises and conversation. Reading of a Russian newspaper.

**Russian 302. (S)**
SCIENTIFIC RUSSIAN 3 credits
Theory and practice in translating scientific texts. Selected readings in chemistry, physics, mathematics, geology, anatomy, and astronomy.

**Russian 303. (F)**
ADVANCED READINGS AND COMPOSITION 3 credits
Selected readings of 19th and 20th century Russian prose and verse. Intensive exercises in translating standard English prose into Russian.

**Russian 304. (S)**
TRANSLATION OF SCIENTIFIC AND TECHNICAL RUSSIAN 3 credits
Translation of selected scientific and technical articles from contemporary journals in mathematics, bio-medicine, chemistry, geology, and physics. Texts selected by student in conjunction with adviser in major field.

**Russian 401. (F)**
HISTORY OF THE RUSSIAN LANGUAGE 3 credits
Historical background for an understanding of the phonology, morphology, syntax, and vocabulary of modern Russian.
Russian 402. (S)  D  OLD RUS' LITERATURE  3 credits

Spanish 201-202. (F, S)  D  INTERMEDIATE SPANISH  3 credits
Review exercises in comprehending, speaking, reading, and writing Spanish. Cultural information on Spanish-speaking countries. Weekly assignments in the Language Laboratory.

Spanish 301-302.  D  ADVANCED CONVERSATION AND COMPOSITION  3-6 credits
Includes intensive oral and written exercises with a view towards improving the student’s speaking and writing skills. Students make frequent use of audio aids.
Spanish 307. (F, S)  
COMMERCIAL SPANISH  
3 credits  
Intended to acquaint the student with commercial Spanish terminology combined with lectures, readings, and translations of business letters. Introduction of new vocabulary used in the business world with emphasis on Spanish American idiomatic expressions.

Spanish 311. (F)  
SURVEY OF SPANISH LITERATURE I  
3 credits  
An introduction to the study of Spanish literature which combines reading and discussion of the earliest works from the Middle Ages to the masters of drama of the Golden Age.

Spanish 312. (S)  
SURVEY OF SPANISH LITERATURE II  
3 credits  
A course in readings and discussions of the authors from the 18th century to the contemporary period, including the neoclassic and romantic eras, and the modern novelists and poets.

Spanish 313. (F, S)  
SURVEY OF SPANISH AMERICAN LITERATURE  
3 credits  
Reading and discussion of works from the colonial period to the 20th century, with special emphasis upon contemporary Latin American literature.

Spanish 321. (F)  
SURVEY OF SPANISH CIVILIZATION  
3 credits  
A cultural and historic study of Spain’s past, examining the effects of Rome and Islam, the period of Spanish domination and later decline, and the status of present-day Spain.

Spanish 322. (S)  
SURVEY OF SPANISH AMERICAN CIVILIZATION  
3 credits  
A cultural and historic presentation of the diversity of Latin America from the Aztecs and Incas to the Conquest, the viceroyalties, and the establishment of independent nations; course concludes with a thorough study of today’s Latin America.

Spanish-Education 350. (F)  
METHODS AND TECHNIQUES IN TEACHING BILINGUAL EDUCATION  
3 credits  
Linguistic and cultural problems in the teaching of a second language. A basic knowledge of Spanish assumed. Emphasis on materials, techniques, and attitudes of teachers and students.

Spanish-Education 351. (S)  
SPANISH FOR EDUCATORS AND OTHER PROFESSIONALS  
3 credits  
Designed to increase the Spanish language skills of teachers, law enforcement officers, and social workers in bilingual settings. Special emphasis on the vocabulary of each profession. Cultural survey of present-day problems in Puerto Rico and other Caribbean countries. Guest presentations and field visits to bilingual schools and centers.

Spanish 401. (F)  
HISTORY OF THE SPANISH LANGUAGE  
3 credits  
Study of the formation of the language, its evolution and phonetic changes from Latin to the present modern pronunciations. Reading and discussion of the early Spanish texts and the development of the language in the early period.

Spanish 405. (F, S)  
LITERATURE OF THE MIDDLE AGES  
3 credits  
Emphasis is placed on such works as Cantar de Mio Cid, Poema de Fernan Gonzalez, and Amadis de Gaula; authors include Berceo, Alfonso X, Juan Manuel, Juan Ruiz, Marques de Santillana, and los Manrique.

Spanish 411. (F, S)  
RENAISSANCE LITERATURE  
3 credits  
The works of Boscan, Garcilaso, Encina, Nebrija, Torres Naharro, and Lope de Rueda, and such works as Tirant lo Blanc, Celestina, and Lazarillo de Tormes form the basis of this period of literary activity.
Spanish 415. (F, S)  
Drama of the Golden Age  
3 credits  
Readings, reports, and discussions of the principal dramatists of the Golden Age: Lope de Vega, Tirso de Molina, Calderon, Alarcon, and others.

Spanish 419. (F, S)  
Reading List: Cervantes  
3 credits  
Readings and discussions of Don Quixote. Other important works by Cervantes also discussed.

Spanish 442. (F, S)  
Romanticism  
3 credits  
A study of the early 19th century which analyzes works of such authors and poets as Larra, Duque de Rivas, Zorilla, Espronceda, Garcia Gutierrez, Hartzenbusch, and Becquer.

Spanish 443. (F, S)  
Poetry of the 19th and 20th Centuries  
3 credits  
Works by Gabriel y Galan, de Castro, Dario, los Machado, Jimenez, Lorca, Guillen, Otero, and Salinas are considered.

Spanish 448. (F, S)  
The Spanish American Novel  
3 credits  
Readings and discussions on the sociological and the literary aspects of the leading Spanish American authors with emphasis upon the contemporary novel of Mexico, Argentina, and Colombia.

Spanish 457. (F, S)  
The Spanish Novel of the 19th and 20th Centuries  
3 credits  
Reading and discussion of Spanish authors, their ideology and philosophies: Fernan Caballero, Galdos, Valera, Pio Baroja, Ala, Cela, Delibes, and Goytisolo.

Spanish 480. (F, S)  
Seminar  
3 credits  
Topics of investigation vary from semester to semester.

Comparative Literature 101. (F)  
Survey of Western Literature I  
3 credits  
Lectures on masterpieces of western literature from its beginnings to the end of the classical period. Course investigates the western author's attempt to establish a consistent world view and the emergence of specific literary forms: the epic, the narrative, the drama. Discussion of comparative aspects of English, French, German, Italian, Russian, and Spanish literatures. Team-taught.

Comparative Literature 103. (S)  
Survey of Western Literature II  
3 credits  
Lectures on masterpieces of western literature from the end of the classical period to the present day. Course investigates relationship of the modern author to reality and the transformations in his world view and in specific literary forms. Discussion of comparative aspects of English, French, German, Italian, Russian, and Spanish literatures. Team-taught.

Geology  
H. A. Bart, Ph.D., Chairman  
Associate Professors: Bart, Hoersch

Required for Major in Geology: 15 courses

- Geology 101, 102, 202, 203, 204, 205, 302, 303, 401, plus three elective geology courses at the 200 level or above.
• Chemistry 111-112. Mathematics 113.
• Suggested courses: Students anticipating graduate work in geology or closely related areas are advised to elect courses in basic sciences, mathematics, computer science, Russian, German, or French.

Geology 101. (F) D
PHYSICAL GEOLOGY 3 credits
An introduction to the various physical processes that constantly change the interior and the surface of the earth, including weathering, earthquakes, volcanoes, glaciation, marine erosion, and mountain building. Two hours lecture, two hours laboratory and field trips.

Geology 102. (S) D
HISTORICAL GEOLOGY 3 credits
An introduction to the evolutionary physical and biological processes that have modified the earth through geologic time. Two hours lecture, two hours laboratory and field trips.

Geology 103-104. (F, S) D
DESCRIPTIVE ASTRONOMY I & II 3-6 credits
The celestial sphere and its coordinates; the telescope and other astronomical instruments, time and the calendar; the solar system; the stars—their distances, motion, spectra, luminosity, and development; binary and multiple star systems, nebula; and the external galaxies. Geology 103 is not a prerequisite for Geology 104.

Geology 105. (S) D
PHYSICAL OCEANOGRAPHY 3 credits
A study of physical oceanography with emphasis on tides, currents, waves, chemistry of sea water, and geology of ocean basins. Three hours lecture.

Geology 201. (S) 3 credits
GEOMORPHOLOGY
A study of the genesis, formation, and characteristics of land forms. Laboratory exercises include an interpretation of land forms for topographic maps and aerial photographs. Two hours lecture, two hours laboratory.

Geology 202. (F) 4 credits
MINERALOGY AND CRYSTALLOGRAPHY
The identification of minerals using physical characteristics. An introduction to crystal chemistry and symmetry. Three hours lecture, two hours laboratory. Prerequisites: Geology 101, 102.

Geology 203. (S) 4 credits
OPTICAL MINERALOGY
An introduction to the theory of light transmission in crystals. Use is made of the polarizing microscope to study light phenomena in minerals. Lab is concerned with identification of minerals using thin section and oil immersion techniques. Two hours lecture, four hours laboratory. Prerequisite: Geology 202.

Geology 204. (S) 4 credits
PETROLOGY
Descriptive classifications of textures and processes of igneous, metamorphic, and sedimentary rocks with emphasis on hand specimen identification. Two hours lecture, four hours laboratory. Prerequisite: Geology 202.

Geology 205. (F) 3 credits
PALEONTOLOGY
A review of the invertebrate and vertebrate fossil record. Correlation of biological development with the stratigraphic record. Includes recent advances in paleoecology. Two hours lecture, two hours laboratory.
Geology 301. (S)  
STRATIGRAPHY  
3 credits  
An introduction to physical stratigraphy, methods of correlation of rock and time rock units: the interpretation of paleogeography. Two hours lecture, two hours laboratory.

Geology 302. (F)  
SEDIMENTOLOGY  
4 credits  
Analysis and interpretation of sedimentary processes; classification and analysis of the common sedimentary rocks. Three hours lecture, three hours laboratory.

Geology 303. (F)  
STRUCTURAL GEOLOGY  
3 credits  
Description and mechanics of structural features such as: folds, joints, faults, lineations and foliations features. Laboratory is concerned with problem solving using geometric and stereographic techniques, cross-sections, and the examination of tectonic forces that cause deformation. Two hours lecture, three hours laboratory. Prerequisites: Mathematics 113, Geology 101, 102, 202, 204.

Geology 304. (S)  
GLOBAL TECTONICS  
3 credits  
A review of the literature on the theory of plate movement and study of the dynamic earth system with implications as to the origins of magma, earthquakes, and sea-floor spreading. Three hours lecture, one hour laboratory. Prerequisites: Geology 101, 102.

Geology 305. (S)  
GEOCHEMISTRY  
3 credits  
Discussions of the geochemical behavior of the elements comprising the earth. A look at the chemical processes involved with weathering, oxidation, and the crystal chemistry of solids with application to the formation of stable compounds (phase theory). Three hours lecture. Prerequisites: Chemistry 111-112; Geology 101, 102, 202.

Geology 401. (F)  
IGNEOUS PETROLOGY  
4 credits  
Classification, examination, and analysis of igneous rocks. Petrographic analysis of rock suites in thin section will be used to determine the cooling histories of the rocks. Two hours lecture, four hours laboratory, field trips. Prerequisites: Geology 202, 203, 204; Chemistry 111, 112.

Geology 402. (S)  
METAMORPHIC PETROLOGY  
4 credits  
A review of the metamorphic facies concept with a look at the physical, thermodynamic, and geochemical processes concerned with mineral recrystallization. Detailed thin-section examination of the various metamorphic zones. Two hours lecture, four hours laboratory, field trips. Prerequisites: Geology 202, 203, 204; Chemistry 111, 112.

Geology 403. (S)  
ECONOMIC GEOLOGY  
3 credits  
The study of ore deposits associated with igneous, metamorphic, and sedimentary rocks. Emphasis on classical ore deposits. A survey of the various origins for metallic and non-metallic deposits. Three hours lecture. Prerequisites: Geology 202, 204; Chemistry 111, 112.

Geology 470. (F)  
TOPICS IN ADVANCED GEOLOGY  
3 credits  
Selected topics dealing with contemporary developments in geology.

Geology 480. (F, S)  
RESEARCH  
1-4 credits  
 Supervised research in geology. Can be elected in fall, spring, or summer. Permission of chairman required.
**HISTORY**

GEORGE B. STOW, Ph.D., Chairman  
*Professors: O'Grady, Rossi*  
*Associate Professors: Ceraky, Fair, Hennessy, Labunka, McCarthy, Stow*  
*Lecturer: Lukacs*

**Required for Major in History:** 14 courses

- Three from each section, plus a two-semester seminar.

**SECTION I: FOUNDATION COURSES**

Designed to provide a broad overview of the past. Viewed as basic foundation courses for all students interested in the past.

**History 111.**  
**HISTORY OF WESTERN CIVILIZATION TO 1500**  
3 credits  
A survey of cultural achievements of ancient civilizations of the Mediterranean basin, as well as of the medieval Europe which became part of the heritage of Western or European civilization.

**History 112.**  
**HISTORY OF WESTERN CIVILIZATION SINCE 1500**  
3 credits  
A survey of European history from Renaissance to modern times. Development of national states and other modern institutions in Europe discussed. Socio-economic changes within the European society considered as a background.

**History 113-114.**  
**AN INTRODUCTION TO THE AFRO-ASIAN WORLDS, I & II**  
3-6 credits  
An examination of the social, economic, political, and cultural institution of Asia, the Moslem world, tropical Africa, and South Africa.

**History 115.**  
**HISTORY OF THE UNITED STATES TO 1865**  
3 credits  
A survey of the American people from colonial days to the Civil War.

**History 116.**  
**HISTORY OF THE UNITED STATES SINCE 1865**  
3 credits  
A survey of the American people with particular emphasis upon industrialization, social change, and the growth of the nation as a world power.

**SECTION II: CHRONOLOGICAL SURVEYS**

Designed to provide a detailed examination of a more limited historical period.

**History 131.**  
**LATIN AMERICA: THE COLONIAL PERIOD**  
3 credits  
A survey that treats the Inca, Aztec, and Maya cultures, African influences as well as Spanish and Portuguese contributions to the development of Latin America.

**History 132.**  
**REVOLUTION AND SOCIAL CHANGE IN LATIN AMERICA**  
3 credits  
Revolutionary movements in Latin America from Independence to the present with special emphasis on Castro, Allende, Peron, Zapata, Vargas, and the military dictators.
History 135.  
THE ANCIENT NEAR EAST  
3 credits  
A survey that stresses the development of Greek civilization until the death of Alexander the Great.

History 136.  
THE HELLENISTIC AND ROMAN WORLDS  
3 credits  
A survey that places a special emphasis upon the Roman Republic and the Empire until 476 A.D.

History 138.  
THE EARLY MIDDLE AGES  
3 credits  
A study of the period from 284 A.D. until c. 1000 A.D., emphasizing the synthesis of Roman, Christian, and barbarian cultures.

History 139.  
THE LATER MIDDLE AGES  
3 credits  
A study of the period from c. 1000 A.D. until the Renaissance, focusing on the social, economic, intellectual, and political revival of Europe.

History 141.  
MODERN EUROPE TO 1870: THE AGE OF REVOLUTIONS  
3 credits  
A survey of Europe centered on the political and social development in Germany and France and the impact of Russia's rise to world power.

History 142.  
MODERN EUROPE SINCE 1870: THE AGE OF VIOLENCE  
3 credits  
A detailed survey of Europe in the last hundred years.

History 144.  
TOPICS IN AFRICAN HISTORY  
3 credits  
An account of the empires, tribes, and development of Africa from earliest times to the present.

History 146.  
EAST ASIA IN THE MODERN WORLD  
3 credits  
Changes in Modern Asia as a result of the rise of industrialism, urbanism, nationalism, and western influence.

History 148.  
SLAVIC AND EASTERN EUROPEAN HISTORY  
3 credits  
An examination of the rise of Slavic civilization and the present problems of Eastern Europe.

SECTION III: 
TOPICS COURSES  
Special in-depth analysis of limited themes and topics.

History 224.  
HISTORY OF PHILADELPHIA  
3 credits  
The historical development of Philadelphia from colonial times to the present, emphasizing the way people lived, the impact of transportation upon city growth, and the changing nature of industrialization. Lectures combined with field trips. Cost of field trips requires an additional fee of $40.00.

History 225.  
IMPERIALISM IN THE MODERN WORLD  
3 credits  
A study of the expansion of western nations into the world of Asia and Africa in the 19th century, and the contraction of western influence in these areas in the 20th century.
History 228. WOMEN AND HISTORY 3 credits
From myth to Ms. An introduction to the study of the idea and the ideal of woman and her role in history. The course approach will be interdisciplinary.

History 229. THE AMERICAN WOMAN 3 credits
An in-depth analysis of the experience of women in American culture. Special attention to the women’s rights movement, women and the law, and the unique challenges facing black women.

History 231. AMERICA’S MILITARY PAST 3 credits
The impact of the American military establishment upon American society, and the formation of defense strategy and foreign policy.

History 233. THE AMERICAN IMMIGRANT 3 credits
The history of immigration to America and the ethnic impact upon American institutions.

History 237. THE BLACK EXPERIENCE IN AMERICA 3 credits
The main themes in black history from the African experience to the present with special attention given to slavery, protest movements, civil rights, and black achievement.

History 240. TOPICS IN MODERN HISTORY 3 credits
An examination of selected topics illustrating the political, social, and cultural history of the modern world.

History 242. HISTORY OF THE WESTERN MOVEMENT IN AMERICA 3 credits

History 244. BIOGRAPHICAL HISTORY 3 credits
An investigation of important historical events through the role of individual men and women in history. Stresses guided research.

History 247. PRESIDENTIAL POLITICS: ROOSEVELT TO REAGAN 3 credits
Historical analysis of presidential campaigns from 1900 to 1980, stressing the evolution of political techniques, issues, political parties, and presidential personalities.

History 249. DIRECTED READINGS 3 credits
Readings of certain basic books relating to a specific historical topic, theme, or era: assignments discussed in seminar-tutorial fashion.

SECTION IV: NATIONAL COURSES
A detailed examination of specific eras in national histories. May be taken for distribution with the approval of the chairman.

History 302. THE AMERICAN REVOLUTION 3 credits
An intensive analysis of concepts and movements generated in the American colonies which resulted in revolution and separation of the British settlements.

**SECTION V: SEMINARS**

Required of all history majors. These courses are designed to provide the student with an exposure to the methodology of historical research. Methodology is offered in the fall semester; research seminars in the spring.

**History 480-485. SEMINARS**

Methodological and research courses.

**CONCENTRATION IN INTERNATIONAL STUDIES (CIS)**

Directed by: DR JOSHUA BUCH

Designated as a minor available to all students regardless of the major

**Required:**

Category I: Two of the following General Education courses:
- English 164, 165
• French 161, 162
• German 161, 162
• Spanish 161, 162

Category II: Two of the following Area Distribution courses:
• English 312
• Economics 412
• History 113, 114, 132, 142, 144, 146, 148*, 225*, 347*, 352*, 358*

MATHEMATICAL SCIENCES

SAMUEL J. WILEY, Ph.D., Chairman
Professors: Albright, McCarty
Associate Professors: Hofmann, O’Neill, Quinn, Wiley
Assistant Professors: Andrilli, Brady, Eisman, Mooney, Tseng, Van Rossum
Instructors: Hoover, Kirsch, McHugh, Pomerance, Turk
Lecturer: Schelter

Required for Major in Mathematical Sciences: 15 courses
There are three major programs: computer science, mathematics, and mathematics-education. The choice of program should depend on career objectives and personal interests. If there are any questions the student should consult with the department chairman or departmental adviser.

Mathematics:
Mathematics 120, 221, 222, 240, 321, 341; Computer Science 150, Physics 105-106 or 111-112, and six mathematics courses from Section B.

Computer Science:
Mathematics 120, 221, 240, Computer Science 150, 153, 254, 257; four computer science courses chosen from Section D; two approved courses in probability and statistics (with permission of the chairman, one probability-statistics course and one computer science course from Section D); and two courses chosen from the following: computer science Section D: Information Systems 301, 401; Mathematics 222, 321, 341, 421; Philosophy 325; Physics 251, 353; computer science Section E (only with approval of chairman).

Mathematics-Education (11 courses):
Mathematics 120, 221, 222, 240, 321, 330, 341; Computer Science 150, Physics 105-106 or 111-112, and one mathematics course from Section B.
Computer Science-Mathematics (Dual major requiring approval of dean and department chair-
man.): Mathematics 120, 221, 222, 240, 321, 341, 410, 411; Computer Science 150, 153,
254, 257; four computer science courses from Section D; Physics 105-106; and two
mathematics courses from Section B.

SECTION A:
Mathematics 101. (F)
INTERMEDIATE ALGEBRA 3 credits
Algebraic operations, linear and quadratic equations, exponents and radicals, elementary func-
tions, graphs, systems of linear equations. Note: Not to be taken to fulfill distribution or major
requirements. Students who have other college credits in mathematics must obtain permission of
the department chairman to enroll in this course.

Mathematics 107-108.
MATHEMATICS FOR THE LIBERAL ARTS D 3-6 credits
A terminal course aimed at liberal arts students. Fall term topics include numeration systems,
computer programming (basic), groups, real numbers. Spring term: number theory, logic,
geometry, probability. One year high school algebra only prerequisite for course.

Mathematics 111. (F, S)
INTRODUCTION TO CALCULUS D 3 credits
Fundamentals of differential calculus, concentrating on algebraic, exponential, and logarithmic
functions with applications of calculus to the management and social sciences. Intended for
business and liberal arts majors who have had at least two years of high school algebra.

Mathematics 112. (F, S)
CALCULUS AND FINITE MATHEMATICS 3 credits
Continuation of Mathematics 111. Topics include integral calculus, permutations, combinations,
elementary probability, and linear algebra. Prerequisite: Mathematics 111.

Mathematics 113. (F)
ALGEBRA AND TRIGONOMETRY 4 credits
Sets: the real number system; linear systems; matrices; logarithmic, exponential, and trigonomet-
ric functions; theory of equations. A knowledge of elementary trigonometry is assumed.

Mathematics 120. (F, S)
CALCULUS AND ANALYTIC GEOMETRY I 4 credits
Functions; limits and continuity; differentiation of algebraic functions; maxima and minima; curve
tracing, velocity, and acceleration; integration with applications to areas, volumes, surfaces, and
work; the fundamental theorem of the calculus. Prerequisite: Mathematics 113 or equivalent in
secondary school mathematics.

Mathematics 221. (F, S)
CALCULUS AND ANALYTIC GEOMETRY II 4 credits
Differentiation and integration of transcendental functions; techniques of integration; improper
integrals; conic sections; polar coordinates. Prerequisite: Mathematics 120.

Mathematics 222. (F, S)
CALCULUS AND ANALYTIC GEOMETRY III 4 credits
Linear algebra; vector functions; partial differentiation, multiple integration; infinite series; Taylor
expansions. Prerequisite: Mathematics 221.

Mathematics 240. (F, S)
LINEAR ALGEBRA 3 credits
Linear equations and matrices; real vector spaces; linear transformations and matrices, determin-
ants, eigenvalues and eigenvectors. Prerequisite: Mathematics 112 or 120.
Mathematics 321. (F)  
ADVANCED CALCULUS  
3 credits  
Calculus of vector valued functions; Green, Gauss, and Stokes theorems; infinite series. Prerequisite: Mathematics 222.

Mathematics 341. (F)  
ABSTRACT ALGEBRA  
3 credits  
Sets and mappings; groups, rings, and homomorphisms; Sylow theorems; quotient structures; polynomial rings; ideals. Prerequisite: Mathematics 240 or permission of instructor.

SECTION B:

Mathematics 322. (S)  
DIFFERENTIAL EQUATIONS  
3 credits  
Differential equations of the first order; linear differential equations of higher order; Laplace transforms; series solutions; applications to the physical sciences. Prerequisite: Mathematics 222.

Mathematics 330. (F 1982)  
MODERN GEOMETRIES  
3 credits  
Topics from Euclidean geometry, projective geometry, the classical non-Euclidean geometries; recent developments in geometry. Prerequisite: Mathematics 240.

Mathematics 410.  
PROBABILITY AND STATISTICS I  
3 credits  
Sample spaces and probability measures; combinatorics; conditional probability and independence; random variables; densities and distributions; functions of a random variable; expected value; variance; Chebyshev’s inequality; correlation coefficient; laws of large numbers; central limit theorem; applications to random walk. Prerequisite: Mathematics 222.

Mathematics 411.  
PROBABILITY AND STATISTICS II  
3 credits  

Mathematics 421. (F 1982)  
NUMERICAL ANALYSIS  
4 credits  
Basic concepts: interpolation and approximations; summation and finite differences; numerical differentiation and integration; roots of equations. Prerequisites: Mathematics 222, Computer Science 150 or 151.

Mathematics 422.  
PARTIAL DIFFERENTIAL EQUATIONS  
3 credits  
One dimensional wave equation, classification of linear second-order partial differential equations in two variables, some properties of elliptic and parabolic equations, separation of variables, Fourier series, Sturm-Liouville theory, Bessel functions. Prerequisite: Mathematics 322.

Mathematics 423.  
REAL VARIABLES  
3 credits  
Real number system; Lebesgue measure; Lebesgue integration; differentiation; general measure and integration theory. Prerequisite: Mathematics 321.

Mathematics 424.  
COMPLEX VARIABLES  
3 credits  
Analytic functions; Cauchy-Riemann equations; Cauchy’s integral theorem; power series; infinite series; calculus of residues; contour integration; conformal mapping. Prerequisite: Mathematics 321.
Mathematics 430.  
TOPOLOGY  
3 credits  
Topological spaces: subspaces, product spaces, quotient spaces; connectedness; compactness; metric spaces; applications to analysis. Prerequisite: Mathematics 341.

Mathematics 470, 471, 472, 473.  
SELECTED TOPICS IN MATHEMATICS  
3 credits  
An introductory course to specialized research, concentrating on one particular aspect of mathematics. The subject matter will vary from term to term.

**COMPUTER SCIENCE**

**SECTION C:**

Computer Science 150. (F, S)  
INTRODUCTION TO COMPUTER SCIENCE IN SCIENCE AND MATHEMATICS  
3 credits  
Basic programming and program structure, data representation, survey of computers—languages, systems, and applications (with emphasis on mathematical-scientific applications) — computer solution of several applied problems using the BASIC language. Recommended for science, mathematics, and computer science majors. Prerequisite: one year of college mathematics (or taken concurrently).

Computer Science 151. (F, S)  
INTRODUCTION TO COMPUTER SCIENCE IN BUSINESS ADMINISTRATION  
3 credits  
Basic programming and program structure; data representation; survey of computers—languages, systems, and applications (with emphasis on business applications) — computer solution of several data processing problems using the BASIC language. Recommended for business and liberal arts majors. Prerequisite: one year of college mathematics (or taken concurrently).

Computer Science 153. (F, S)  
ALGORITHMS AND DATA STRUCTURES  
3 credits  
Emphasis on the development of algorithms for problem solution with programming in PASCAL. Introduction to elementary data structures: arrays, stacks, queues, linked lists, trees. Sorting and searching algorithms. Prerequisite: Computer Science 150 or 151.

Computer Science 154. (S)  
COBOL IN BUSINESS DATA PROCESSING  
3 credits  
Review of computer concepts, problem solving, and program documentation. Study and use of COBOL language in several case studies of commercial data processing applications. Emphasis on structured programming, documentation, problem analysis, file processing, and organization. This is a terminal course designed for business majors. Prerequisite: Computer Science 151.

Computer Science 254. (F, S)  
FILE AND DATA MANAGEMENT SYSTEMS  
3 credits  
Introduction to COBOL language. File types and file management. Introduction to data base management systems and random-access data structures in their implementation. Prerequisite: Computer Science 153 or permission of instructor.

Computer Science 257. (F, S)  
COMPUTER STRUCTURE AND ASSEMBLY LANGUAGE  
3 credits  
Introduction to computer structure and architecture with programming assignments done in MACRO-20. Computer structure and machine language, assembly language, addressing techniques, macros, file input/output, subroutines, recursion, interrupts, error handling. Prerequisite: Computer Science 153.
SECTION D:

Computer Science 354. (F)
DATA STRUCTURES 3 credits
An in-depth treatment of a variety of data structures and their associated algorithms. Stacks, queues, arrays and their address mapping functions. Linear lists, list operations, sequential and linked storage allocation, and garbage collection. Trees, binary trees, tree operations, and use of trees in sorting and searching. Multi-linked structures. Dynamic storage allocation; files and file structures; hash codes and comparison of search methods. Prerequisite: Computer Science 153.

Computer Science 355. (F)
DISCRETE STRUCTURES 3 credits
Review of set algebra including mappings and relations; algebraic structures including semigroups and groups; elements of the theory of directed and undirected graphs; Boolean algebra and propositional logic; applications of these structures to various areas of computer science. Prerequisite: Computer Science 153, Mathematics 240.

Computer Science 356. (S)
PROGRAMMING LANGUAGES 3 credits
Formal definition of programming languages including specification of syntax and semantics; simple statements including precedence, infix, prefix, and postfix notation; global properties of algorithmic languages including scope of declarations, storage allocation, grouping of statements, binding time of constituents, subroutines, coroutines, and tasks; list processing, string manipulation, data description, and simulation languages; run-time representation of programs and data structures. Prerequisites: Computer Science 254, 257.

Computer Science 357. (F)
ASSEMBLERS, LOADERS AND COMPILERS 3 credits
Macros and their use. Structure and function of assemblers, linking loaders, and compilers. Program subroutine linkage, parameter passing and binding. Syntax graphs and parsers. Students will design and program several examples. Prerequisite: Computer Science 257.

Computer Science 358. (S)
COMPUTER ARCHITECTURE 3 credits
General computer structure. Basic logic design: gates, flip-flops, registers, data and address buses. Coding: encoders, decoders, converters. Architecture: communication among large scale computer components, hardware implementation of instructions. Study of a simple computer system. Prerequisite: Computer Science 257 or concurrently.

Computer Science 454. (F)
ADVANCED DATA PROCESSING AND DATA BASE MANAGEMENT 3 credits
Data base system architecture — data structures, storage structures, and data languages. Alternate approaches to data base management systems — relational approach, hierarchical approach, network approach. Data base security and integrity. Query processing. Prerequisite: Computer Science 254.

Computer Science 455. (S)
FORMAL LANGUAGES AND AUTOMATA THEORY 3 credits
Formal languages and their description by grammars and automata: regular, context-free, context sensitive, and unrestricted languages. Deterministic and non-deterministic machines. Finite state machines and their applications. Theory of translation, parsing, LL(K), LR(K) and precedence grammars. Prerequisite: Computer Science 355.

Computer Science 457. (S)
OPERATING SYSTEMS 3 credits
Principles and concepts of process and resource management in operating systems. I/O programming, interrupt mechanism; memory management; processor management, scheduler, traffic controller; device management and information management and file systems. Concepts will be illustrated in the context of modern computers. Prerequisite: Computer Science 357.
SECTION E:

Computer Science 470, 471, 472, 473.
SELECTED TOPICS IN COMPUTER SCIENCE 3 credits
An introductory course to specialized research in computers and computing, concentrating on one particular aspect of computer science. The subject matter will vary from term to term.
ROTC

Enrollment in 100 and 200 level Military Science courses is closed to seniors and open only to juniors with permission of the department chairperson. See page 34 for further information.

Military Science 101. (F, S)
MILITARY SCIENCE I, THE HISTORY OF MILITARY ART 1 credit
The art of war from ancient times to the present. A study of military operations and the evolution of military theory and institutions. One hour leadership laboratory.

Military Science 102. (S)
MILITARY SCIENCE I, AMERICAN MILITARY HISTORY 2 credits
Examines the how and why of American involvement in wars from the Revolution to Vietnam. One hour leadership laboratory.

Military Science 201. (F, S)
MILITARY SCIENCE II, MILITARY GEOGRAPHY 1 credit
The estimate of national power and the role of geopolitics examined in the framework of American military operations and the national security structure of the U.S. One hour leadership laboratory.

Military Science 202. (S)
MILITARY SCIENCE II, MILITARY GEOGRAPHY (Continued) 2 credits
A study of tactical military geography to include a study of map reading and geomorphology. Class discusses and practices the essence of orienteering. One hour leadership laboratory.

Military Science 301. (F)
ADVANCED MILITARY SCIENCE III, MILITARY LEADERSHIP 3 credits
Introductory course in leadership examining the principles of leadership. Includes a case study of the junior army leader, his roles and responsibilities. One hour leadership laboratory mandatory. Prerequisite: Permission of department chairperson.

Military Science 302. (S)
ADVANCED MILITARY SCIENCE III, MILITARY LEADERSHIP (Continued) 3 credits
Analyzes the role of the leader by examining small unit operations of an infantry platoon. After studying the theory of operations, students are placed in leadership positions and given situations to analyze. One hour leadership laboratory mandatory. Prerequisite: Permission of department chairperson.

Military Science 401. (F)
ADVANCED MILITARY SCIENCE IV, PRINCIPLES OF MILITARY MANAGEMENT 3 credits
Analyzes the principles of management by use of case studies. Stresses the art of communication for success in management. One hour leadership laboratory mandatory. Prerequisite: Permission of department chairperson.

Military Science 402. (S)
ADVANCED MILITARY SCIENCE IV, PRINCIPLES OF MILITARY MANAGEMENT (Continued) 3 credits
Management by the junior officer. Includes command and staff responsibilities and relationships, military law, logistics, maintenance, and administration. One hour leadership laboratory mandatory. Prerequisite: Permission of department chairperson.

PHILOSOPHY

MICHAEL KERLIN, Ph.D., Chairman
Professors: Kerlin, Mihalich, Naughton
Associate Professors: Dallery, Fitzgerald,
Lashchyk, Pierzchalski, Strosler
Assistant Professors: Fallon, Macoretta, Phillips

Required for Major in Philosophy: 10 courses

• Philosophy 207 or 325; 311, 326, 327, 328, 416, 480.
• Any three courses above the 100 level.

GENERAL EDUCATION
The student must take one course in Series A and one course in Series B. The course in Series A must precede the one in Series B. An effort is made to introduce the student to the basic problems and methods of philosophy as well as to some texts from Plato or Aristotle.

SERIES A

Philosophy 161. (F, S)
HUMAN NATURE AND HUMAN DESTINY 3 credits
A study of man in himself and his relationship to others and to the world. Themes discussed include human freedom and human love; alienation; and human destiny.

Philosophy 162. (F, S)
FOUNDATIONS OF MORAL LIFE 3 credits
A study of philosophical interpretations of moral life and their application to specific problems. Themes discussed include the nature of commitment and responsibility; the problem of conscience and moral law; the character of moral judgment; and the notion of the good for mankind.

Philosophy 164. (F, S)
CRITICAL THINKING 3 credits
Aims at developing the skill of analyzing, interpreting, and criticizing arguments from a variety of disciplines. Topics include: clarification of concepts, distinguishing between conclusions and reasons for conclusions, evaluation of arguments, and the recognition of fallacies.

Philosophy 201. (F, S)
ART AND CREATIVITY (AESTHETICS) 3 credits
A consideration of the philosophical basis for making judgments about the art experience. Designed to acquaint the student with the major features and thinkers of the classical, romantic, and modern periods.

SERIES B

Philosophy 166. (F, S)
REASON AND REALITY 3 credits
A study of the basic relationships between thought and reality. Themes discussed include skepticism and truth; rationality and selfhood; and knowledge and the various manifestations of existence.

Philosophy 167. (F, S)
PHILOSOPHICAL APPROACHES TO GOD 3 credits
A study of philosophical positions relating to questions about the existence of God. Themes discussed include various concepts of God; the possibility of proof for the existence of God; and the philosophical dimensions of the religious experience.

Philosophy 169. (F, S)
WORK AND CULTURE 3 credits
A philosophical consideration of the relationship between work and other dimensions of human life. Topics include: work and society, work and rationality, work and morality, work and play, work and creativity, work and alienation.
Philosophy 202. (F)  
EASTERN PHILOSOPHY  
3 credits  
A study of the primary streams of Hindu and Chinese thought as they originated and as they attract western thinkers of today. Jainism, Samkhya-Yoga, Vedanta, Early Buddhism, Transcendental Buddhism, Confucianism, Taoism, forms of Chinese Buddhism, and Zen will be given most attention.

Philosophy 203. (S)  
AMERICAN PHILOSOPHY  
3 credits  
A presentation and evaluation of the major thinkers and themes in American thought from the Enlightenment through Transcendentalism to Pragmatism. Figures studied include: Emerson, Peirce, James, Dewey, and Royce.

Philosophy 204. (S)  
RUSSIAN AND EAST EUROPEAN PHILOSOPHY  
3 credits  
A study of such thinkers as Skvoroda, Tolstoy, Lenin, Stalin, Berdyaev and others. The relationship of Soviet Marxism and dialectical materialism to ethics, art, and science; human rights, national rights, and the problems of minorities.

Philosophy 205. (F)  
PHILOSOPHY OF COMMUNISM  
3 credits  
An historical and systematic study of the writings of Karl Marx emphasizing the Hegelian origins of his critique of capitalism, the problem of ideology, the Marxian view of social science, and the development of Marxism as theory and practice at the hands of Engels, Lenin, and Stalin.

Philosophy 206. (F)  
SOCIAL PHILOSOPHY  
3 credits  
A critical examination of the nature and origins of society through the reading and discussion of some of the primary philosophical texts. Themes include: person and society, human rights and law, justice and society, culture and society, the natural and the social sciences. Particular problems considered will include the black experience in American society.

Philosophy 207. (F)  
CLASSICAL LOGIC  
3 credits  
A study of traditional, or Aristotelian, logic stressing the major forms of inference found in ordinary discourse. It includes a consideration of the material or non-formal fallacies in deductive and inductive reasoning.

Philosophy 208. (S)  
THE PHILOSOPHY OF HISTORY  
3 credits  
A study of some of the principal viewpoints about historical knowledge and historical development. Problems discussed include: subjectivity and objectivity, causality and explanation, perspective and relativities in history. The great schemes of historical interpretation also considered.

Philosophy 209. (S)  
THE PHILOSOPHY OF THOMAS AQUINAS  
3 credits  
A study of the philosophical problems which arose in the Middle Ages and of the solutions proposed by Thomas Aquinas. Texts principally from Essence and Existence and the Summa Theologicae.

Philosophy 210. (F, S)  
EXISTENTIALISM  
3 credits  
An approach to contemporary phenomenology and existentialism through philosophers such as Husserl, Heidegger, Sartre, and Merleau-Ponty. Topics include: the phenomenological method, human existence as process, meaning vs. absurdity, and the overcoming of alienation.
Philosophy 212. (S)  
ETHICS: THEORIES AND ISSUES  3 credits
Intended to stimulate and help the student to do clear, precise, philosophical thinking about ethical questions through the reading and discussion of some of the primary philosophical texts that influenced the development of western moral thought; a more specialized course than Philosophy 162. Recommended for all philosophy majors.

Philosophy 213. (F)  
PHILOSOPHY OF SPORTS  3 credits
A philosophical investigation of sports and athletics and their significance as a basic human experience. Topics include sports and the achievement of human excellence; sports as a basis of social and cultural structure; and the analysis of sports in philosophical movements such as Marxism and existentialism.

Philosophy 221. (S)  
BUSINESS ETHICS  3 credits
Business practices evaluated in the light of ethical principles. Special concern given to moral dimensions of management decision making and to the ethical problems of consumerism and government control.

Philosophy 222. (F)  
LOVE AND HUMAN SEXUALITY  3 credits
A philosophical exploration of human love and sexuality. Attention will be given to the connection between the philosophical approach and that of other disciplines. Works by authors such as Plato, Aristotle, Thomas Aquinas, Santayana, Ortega y Gasset and Sartre will be read.

Philosophy 223. (S)  
PERSPECTIVES ON DEATH  3 credits
A study of various philosophical strategies for coming to terms with human death. Western and non-Western sources will be used. Philosophical views on death applied to problems such as aging and dying, suicide and euthanasia, the medical conquest of death, and definitions of death. Of particular value for students choosing careers in the health professions.

Philosophy 311. (F)  
PROBLEMS OF KNOWLEDGE  3 credits
A systematic investigation into the sources, limits, and nature of knowledge. Topics include: meaning and its relation to truth of statements; nature and criteria of truth, role of observation, perspective and conceptualization in the justification of knowledge claims. Required of all philosophy majors.

Philosophy 323. (S)  
THE PHILOSOPHY OF SCIENCE  3 credits
The impact of scientific revolutions on observations and rationality in science studied through the writings of Kuhn and Feyerabend and others. Critical examinations of such concepts in science as scientific method, induction, verification, and falsification.

Philosophy 325. (S)  
SYMBOLIC LOGIC  3 credits
A study of the following aspects of symbolic logic: truth functional logic, quantificational logic, logic of relations, proofs of adequacy for the system used, undecidability and incompleteness, the relationship between modern logic and Aristotelian logic.

Philosophy 326. (F)  
HISTORY OF WESTERN PHILOSOPHY: ANCIENT PERIOD  3 credits
Philosophy in ancient Greece and Rome, with concentration on Plato and Aristotle. Required of all philosophy majors; open to others.
Philosophy 327. (S)
HISTORY OF WESTERN PHILOSOPHY: MEDIEVAL AND RENAISSANCE PERIODS
3 credits
From St. Augustine through the age of scholasticism to the Renaissance. Required of all philosophy majors; open to others.

Philosophy 328. (F)
HISTORY OF WESTERN PHILOSOPHY: MODERN PERIOD
3 credits
From Hobbes and Descartes to the Enlightenment, with concentration on the rationalists, empiricists, and Kant. Required of all philosophy majors; open to others.

Philosophy 416. (F)
TUTORIAL IN PHILOSOPHY
3 credits
Introduces the student to the critical reading of a major philosophical text. Text will be studied in common, and critical papers will be written on the text studied. Required of philosophy majors; open to others with approval of chairman.

Philosophy 470.
SPECIAL TOPICS
3 credits

Philosophy 480. (S)
SEMINAR
3 credits
An investigation of a philosophical theme chosen each year by the department. Students will write a paper on the theme and present their work to the seminar. The seminar has for its purpose the integration of previous philosophical study. Required of philosophy majors; open to others with approval of chairman.

PHYSICS
Chairman: Joseph W. Simmons, M.S.
Associate Professors: Guttmann, Longo, Simmons
Assistant Professor: Strieb

Required for Major in Physics: 15 courses
• Physics 111-112, 113, 211, 212, 213, 311, 313, 411, 412
• Physics 214 and 224 or 351 and 352
• Mathematics 120, 221, 222

Physics 101. (F)
FROM THE ATOM UP
3 credits

Physics 102.
FROM THE ATOM DOWN
3 credits

Physics 105-106.
GENERAL PHYSICS
4 credits
Vectors, elementary mechanics of point particles and rigid bodies, gravitation, simple harmonic motion and waves. Electromagnetism, D.C. and A.C. circuits and elementary optics. Prerequisite: Mathematics 120. Three hours lecture, two hours laboratory: two terms.
Physics 111-112.  
GENERAL PHYSICS I & II  
4 credits  
For freshmen physics majors and qualified students in other disciplines. An introduction to the ideas and techniques of classical physics. First semester: classical mechanics of particles and rigid bodies. Second semester: electricity and magnetism, thermal physics. Relation of these areas to current research is stressed. Prerequisite: Mathematics 120 and 221 concurrently (or equivalent). Three hours lecture, one hour problem session, two hours laboratory; two terms.

Physics 113. (F)  
GENERAL PHYSICS III  
3 credits  
Includes topics relative to wave phenomena and modern physics. Prerequisites: Physics 105-106 or 111-112; Mathematics 221 concurrently.

Physics 120.  
SCIENCE, TECHNOLOGY, AND SOCIETY  
3 credits  
A study of some interactions between science, technology, and society. Topics include: the scientific community; history of technology; weapons, science, technology, and the arts; technology and change.

Physics 211. (S)  
MATHEMATICAL PHYSICS I  
3 credits  
Vector analysis, differential equations, introduction to partial differential equations, Fourier series, special functions, and boundary value problems. Emphasis on the physical origins and applications of mathematical techniques. Prerequisite: Mathematics 221.

Physics 212. (F)  
MATHEMATICAL PHYSICS II  
3 credits  
Complex variables and complex integration, Fourier and Laplace transforms, Green's functions, special function of mathematical physics and boundary value problems. Physical applications stressed. Prerequisite: Physics 211 or permission of instructor.

Physics 213. (S)  
THERMAL PHYSICS  
3 credits  
Topics treated include the first, second, and third law of thermodynamics; kinetic theory of gases; transport phenomena; Maxwell-Boltzmann statistics; Bose-Einstein and Fermi-Dirac statistics. Three hours lecture. Prerequisite: Physics 105-106.

Physics 214. (F)  
ELECTRONICS I  
3 credits  
Circuit theory involving resistors, capacitors, inductors, transformers; diodes, bipolar and field effect transistors, power supplies. Familiarization with basic electronic instruments such as oscilloscope, function generator and impedance bridge. Prerequisites: Mathematics 222 and Physics 105-106. Laboratory required. Alternates yearly with Physics 251.

Physics 220. (S)  
TOPICS IN BIOPHYSICS  
3 credits  
Mechanics: loading of muscles and bones, fracturing of bones, energy considerations of insect flight. Optics: mirrors, lenses, aberrations, microscopes, physics of the eye. Fluids: pressure and flow in tubes, viscosity, diffusion applied to membranes. Prerequisites: Physics 105-106 and Biology 151-152, or permission of the instructor.

Physics 224. (S)  
ELECTRONICS II  
3 credits  
Three terminal devices, transistors and tubes, small signal analysis, DC biasing, multi-stage operation, feedback, special purpose semiconductor devices, operational amplifiers. Prerequisite: Physics 214. Laboratory required.
Physics 311-32.  
ELECTRICITY AND MAGNETISM  
3 credits  
Electrostatics, magnetostatics, dielectrics and magnetic materials. Maxwell’s equations, electromagnetic waves, electromagnetic radiation. Prerequisite: Physics 211 or equivalent.

Physics 311. (S)  
STATES, WAVES, AND PHOTONS  
3 credits  
A modern introduction to optics encompassing matrix representations of optical systems and polarization states of light; the Jones calculus, the Mueller calculus and the Stokes representation; states of light as eigenstates of operators, expectation values, the braket product and probability amplitudes; an approach to scalar diffraction through Green’s theorem and Fourier transforms; the electromagnetic field and its quantization. Prerequisite: Physics 311.

Physics 321. (S)  
INTRODUCTION TO ASTROPHYSICS  
3 credits  
Methods for determining the basic properties of stars, such as temperatures, masses, and radii; stellar energy and structure.

Physics 322. (S)  
PLANETARY PHYSICS  
3 credits  
The solar system and its origins: interiors and atmospheres of terrestrial and giant planets, interplanetary matter and comets. Prerequisite: Mathematics 221.

Physics 351.  
ADVANCED LABORATORY I  
3 credits  
Laboratory work with close faculty guidance, but emphasizing independent work and a professional approach. A selection of experiments from mechanics, acoustics, electricity and magnetism, atomic and nuclear physics, experimental methods and instrumentation, error and data analysis. Prerequisite: Physics 113.

Physics 352.  
ADVANCED LABORATORY II  
3 credits  
Similar in purpose to Physics 351 but with material selected which will not duplicate the student’s previous experience. Prerequisite: Physics 113.

Physics 353. (S)  
INTRODUCTION TO MICROPROCESSORS  
3 credits  
Hardware and software of popular microprocessor chips will be dealt with. E.g. 6800, 1802, 8080, 6502. CPU's, I/O, memories and A/D will be some of the topics treated. Microprocessors available to conduct required experiments. Prerequisite: Physics 251. Laboratory required.

Physics 411-421.  
MECHANICS  
3 credits  
Topics include: the single particle and systems of particles in one, two, and three dimensions: rigid body motion: moving coordinates systems; the mechanics of continuous media: Lagrangian and Hamiltonian formulations; tensor methods; special relativity. Prerequisites: General Physics, Mathematics 222, Physics 211 or permission of the instructor.

Physics 412.  
QUANTUM PHYSICS I  
3 credits  
The Schrodinger equation and its application to one dimensional systems and the hydrogen atom. Heisenberg’s uncertainty relations, perturbation theory for degenerate and nondegenerate states. Prerequisite: Physics 211 or equivalent.
Physics 422.
QUANTUM PHYSICS II 3 credits
Quantizing the electromagnetic field and applications of quantum mechanics to problems in atomic, nuclear and solid state physics. Prerequisite: Physics 412.

Physics 470.
SPECIAL TOPICS 3 credits
As interests indicate, special programs may be introduced into the curriculum, discussing specialized areas for group or independent study.

Physics 480-481.
RESEARCH 1-2 credits
Individual studies and research, presentation of papers, familiarization with the literature.

Political Science 231. (F 1982) D
U.S. FOREIGN RELATIONS I 3 credits
A study of the diplomatic and military instruments of American foreign relations, the formal and informal powers and processes by which policy is made, and the basic patterns of national interest and policy prior to World War II.

Political Science 232. (S 1983) D
U.S. FOREIGN RELATIONS II 3 credits
An analysis of the main problems of American foreign relations from 1945 to the present.

Political Science 234. (F 1982) D
THE POLITICS OF THE SOVIET UNION 3 credits
An examination of the major elements that determine the nature of Soviet polity, including the role of the Communist Party, the relationship between the party and government, the growth of dissent within the Soviet Union, and future prospects for Soviet society.

Political Science 235. (F 1982) D
LATIN AMERICAN POLITICS 3 credits
An examination of the common institutions and political practices that characterize Latin American governments. Mexico examined as an illustration of these institutions and practices.

Political Science 236. (F 1983) D
NON-WESTERN POLITICAL SYSTEMS 3 credits
A study of the governmental institutions and political processes of the People's Republic of China and Japan. Particular emphasis on problems of development and modernization.

Political Science 238. (S, 1984) D
THE MIDDLE EAST AND THE WORLD 3 credits
A study of modern Middle Eastern politics, with emphasis on the origins, issues and present stage of the Arab-Israeli conflict; an analysis of Western and Soviet foreign policies in the area, with emphasis on America's mideast diplomacy.

Political Science 240. (S 1984) D
AMERICAN STATE GOVERNMENT 3 credits

Field placement in law enforcement, judicial and correctional agencies, evaluative seminar sessions with instructors, and completion of a field-oriented project. Students may elect to take both courses in one semester (four days per week, six hours per day in the field and two hours of seminar session per week). Alternatively, students may elect to take the courses sequentially over two semesters (two days per week, six hours per day in the field and one seminar session per week). Students are placed in criminal justice agencies related to their interests and receive individual supervision by a field supervisor employed by the agency and a faculty liaison person. Prerequisite: Criminal Justice 385-386.

SOCIAL WORK
CSWE accredited program
Assistant Professors: J. T. Connors, Montgomery, Simon
Lecturers: Brunn, Waits

Required for Major: Social Work 202, 361-362, 363-364, 461-462, 463-464, 465; Psychology 101, 203; Economics 203; a political science course; Biology 156; Sociology 101, 301-302, 310; two courses from among the following: Sociology 208, 212, 305, 306, 308 (Substitutions permitted with written approval of the program director).

Students are encouraged to use their free electives to build a concentration in their personal areas of interest, e.g., Business Administration, Criminal Justice, Psychology, Spanish, Political Science, Urban Studies, Women’s Studies.

Social Work 202. (F, S) D
INTRODUCTION TO SOCIAL WELFARE 3 credits
A prelude to all other social work courses because it provides a framework of analysis for practice and policy courses. Provides a basic understanding of fundamental human needs, of populations at risk in this society, and of the social service delivery system.

Social Work 361. (F)
SOCIAL WORK THEORY AND PRACTICE I 3 credits
Principles of interviewing and developmental helping skills. Roleplaying, case studies, and videotaping will be used. Instruction and practice in social welfare and related agencies which provide a range of generalist services. Structured agency supervision provides opportunity for students to develop skills and recognize the effect their own intervention has upon clients’ lives. Students spend the equivalent of one full day per week in field instruction. Prerequisite: Social Work 202 or permission of instructor.

Social Work 362. (S)
SOCIAL WORK THEORY AND PRACTICE II 3 credits
Examines casework, group work, and community organization methods which serve as a basis for generalist practice. A range of generalist techniques studied as preparation for practice with individuals, groups and other systems. Instruction and practice in social welfare and related agencies which provide a range of generalist services. Structured agency supervision provides opportunity for students to develop skills and recognize the effect their own intervention has upon clients’ lives. Students spend the equivalent of one full day per week in field instruction. Prerequisite: Social Work 361.

Social Work 363. (F) D
SOCIAL WELFARE POLICY I 3 credits
Social, economic, and political forces and processes influencing public policy formulation and implementation. Traces the evolution of contemporary welfare policies and programs within the context of American social history and culture.
Social Work 364. (F)  
SOCIAL WELFARE POLICY II  
3 credits  
A critical explanation and evaluation of current social welfare policy trends and programs. Discussion of alternatives and strategies for change in selected topics from health care, welfare, education, child care, child welfare, geriatrics, personal social services, and family policy.

Social Work 461-462. (F, S)  
SEMINAR IN SOCIAL WORK I AND II  
3-6 credits  
Building upon the knowledge, attitudes, and skills developed in the junior-level skills and methodologies courses, these senior seminars deepen students' understanding of generalist intervention strategies. To be taken concurrently with Social Work 463-464. Prerequisites: Social Work 361-362.

Social Work 463-464. (F, S)  
FIELD INSTRUCTION I AND II  
6-12 credits  
Instruction in advanced practice skills. Students spend two full days per week in educationally-directed field placements. To be taken concurrently with Social Work 461-462.

Social Work 465. (S)  
PROFESSIONAL CONSIDERATIONS IN SOCIAL WORK  
3 credits  
Questions of values and ethics underlying professional social work practice are explored. Basic social work assumptions and issues are identified and evaluated from philosophical, historical, political, and sociological perspectives.
BUSINESS ADMINISTRATION
The School of Business Administration offers a four-year undergraduate program for men and women leading to the Bachelor of Science degree. The current program represents several years of review of the educational needs of students entering the business world and graduate schools and the needs of the College’s urban environment. Specific consideration has been given to the students’ educational background and age, their experience, their expectations and goals, as well as the urban community — its structure, interests, and attitudes. The program prepares students for managerial responsibilities and provides an enduring base for personal development.

Course requirements and electives are structured to provide: (1) a solid foundation in the arts and sciences as background for professional study in business administration; (2) a business core consisting of study in the several areas of business administration and in analytical methods and techniques; and (3) an opportunity to concentrate in depth in a professional area as a basis for future career development. The general education studies provide the student with an understanding of himself, the humanistic and philosophic aspects of man, Christian thought, and the social, mathematical, and computing sciences relevant to business practice; the business core and professional studies provide a broad understanding of business administration and prepare students for a career or for graduate education.

DEGREE PROGRAM
The program leading to a Bachelor of Science degree in Business Administration consists of 120 credits, about half of which may be taken in business and economics. The general education and professional studies are pursued simultaneously by the student throughout the four years of undergraduate study. In the junior year, a student begins to specialize in a professional option or “major.” Professional options are available in accounting, finance, management, personnel and labor relations, marketing, and quantitative analysis. Special options may be planned to meet individual needs. A cooperative program with St. Joseph’s University provides students with the opportunity to become certified to teach business courses at the secondary level.

PREPARATION FOR TEACHING
Students who wish to teach courses in business administration at the secondary level may receive state certification at the secondary level by participating in a cooperative program involving La Salle and St. Joseph’s University. Under this program, the student completes his General Education and Distribution requirements at La Salle, along with course work in either accounting or marketing. Education courses are pursued both at La Salle and St. Joseph’s. The student receives his degree from La Salle and his certification from St. Joseph’s. Arrangements for program may be completed in consultation with the dean.
CURRICULUM

The curriculum for business administration students has five parts:

1. General Education — 7 courses (21 credits)
2. Distribution Requirement — 9 courses (27 credits)
3. Business Core — 10 courses (30 credits)
4. Professional Studies — 4 courses (12 credits)
5. Electives — 10 courses (30 credits)

The Accounting Option requires 8 courses (24 credits) beyond the Business Core.
The Accounting Option has 6 courses (18 credits) as electives. Two courses (6 credits) in business and economics and 4 courses (12 credits) in arts and sciences are recommended as electives. For other options, 4 courses (12 credits) in business and economics and 6 courses (18 credits) in arts and sciences are recommended as electives.

General Education

These studies are aimed at providing an enduring base for personal development and an awareness of moral values and social responsibility. Normally these courses will be completed by the end of the sophomore year. They include:

- English Composition ............... 1 semester
- Literature .......................... 2 semesters
- Philosophy .......................... 2 semesters
- Religion ............................ 2 semesters

(May be waived if writing competence is established.)
(English or foreign literature in English.)

Distribution Requirement

This requirement provides a measure of balance in the liberal arts and sciences, the major field, while at the same time permitting an element of flexibility so that each student may tailor his program to some degree to fit his interests and needs. The Distribution Requirement is normally completed by the end of junior year. N.B.: mathematics and economics must be selected by all students in the School of Business Administration. General Education courses may not be taken to fulfill Distribution Requirements.

Business administration students may choose two courses from two of the three areas: Area I, III, or V.

¹Students must take Mathematics 111 and 112. Mathematics 120 may be used to satisfy the Mathematics requirement. All students must take Computer Science 151 or equivalent.
²Economics 101-102 is required of business students

Business Core

Course work consists of study in the several areas of business practice and in analytical methods and techniques. This foundation is intended to develop a broad understanding of business problems. The following courses constitute the core:

  Functional Activities: Accounting 101, 102; Finance 201, 300; Management 300; Marketing 201; Law 201.

Professional Studies

These courses provide an intensive learning experience in one facet of business practice and serve as a basis for future career development. Professional options are offered in:

  Accounting  Marketing
  Finance     Personnel and Labor Relations
  Management  Quantitative Analysis  Special Options

The professional option consists of 12 credits, normally in a functional area beyond the courses required in the business core. An exception to the 12 credit requirement is the accounting option, for which a set of course requirements has been established as necessary preparation for the Certified Public Accounting examination in Pennsylvania.

You may choose your professional option when you apply for admission or at some time during your first two years of college. If you wish to pursue a dual major, you must obtain permission from both chairpersons. If you wish to choose a special option, you must obtain the dean's approval of your program.

Free Electives

A student may choose to concentrate his free electives in a particular field or may use these electives to diversify his background or broaden his interests. To achieve a balance between liberal arts and professional studies, the school recommends that a student take no more than 12 credits as electives in business administration or economics.
