Dear Colleagues,

As we welcome the Class of 2006, I would like to share with you some information on the Honors Program class and extend words of appreciation to some people most instrumental in bringing this group to our campus.

Back in September when recruiting began in earnest, I once again set a goal of enrolling between fifty-two and sixty Honors Program students without sacrificing the standards which have served us so well in the past. These enrollment parameters were dictated by a variety of factors which were based on our available resources. I am most pleased to be able to report an enrollment of fifty-five students in the Honors Program Class of 2006, with several students being rejected for admission. This result was achieved while raising the median SAT score slightly from 1320 last year to 1330 this year, somewhat above the historic (since re-centering) level. Three of the students held the rank of number one in their graduating class and approximately 40% of the students ranked in the top ten of their classes (of those students coming from high schools that publish class rank). The thirty-three women and twenty-two men graduated from thirty-nine different high schools. Twenty-seven of the new students will be majoring in arts, seventeen in science, (thirteen in biology, the most frequently cited major), eight in business, and three are undecided. Fifty-two will be residing on campus.

As always, a debt of gratitude is owed to Bob Voss and his staff in the admission office. Their dedication to bringing the La Sallian message and philosophy to some of the top seniors was quite frequently the first step in what would become a matriculated Honors Program student. The faculty who gave so graciously of their time when asked to meet with these students and discuss the advantages of majoring in their discipline at La Salle sent a decidedly positive message to these students and their families. This type of activity continues to be, for me, the most effective recruiting instrument I have.

As a firm believer in continuing with processes that work, I will most likely be calling upon both groups again this year to assist in bringing to La Salle classes that will generate a message that is as positive as I hope this message is. In the meanwhile, “thanks” for your continued assistance and every best wish for an exceptional academic year.

Sincerely,

John S. Grady
Director, Honors Program

The Teaching and Learning Center Study Group at La Salle University

The Teaching and Learning Center, in cooperation with the Core Curriculum, is launching a bi-weekly study group. The group will read current texts on contemporary issues in higher education. Faculty and staff are invited to join. Limit: 20 participants each semester. There will be no charge for the books.

The text for the fall semester is *Making the Most of College* by Richard J. Light, Harvard University. “The book answers two key questions:

“Why do some students make the most of college while others struggle and look back on years of missed deadlines and missed opportunities? What choices can students make, and what can teachers and university leaders do, to improve more students’ experiences…”

If you are interested in participating in the fall, return this form, or email Margot Soven, English Department, soven@lasalle.edu
